

## TURKS GIVE WAY TO ALLIES AT PEACE CONFERENCE WHEN TOLD HOSTILITIES MAY BE RESUMED

To Ratify Frontier and Cede Rest of European Turkey Including Janina and Scutari to Allies — Turkey and Bulgaria to Settle Adrianople, and Powers Deal With Albania and Cretan Questions

## STORMY TIME AT PEACE CONFERENCE WHEN REICHAH PASHA OFFERS TURKISH PROPOSAL

Delegate Retreats Step by Step Under Demands of Allies Who Request Written Statement and Marked Map of Adrianople Territory

London, Jan. 2.—After protracted diplomatic skirmishing the Turks finally capitulated to a majority of the demands of the Balkan allies at yesterday's session of the peace conference in St. James' Palace. Through Reichad Pasha they agreed to cede practically the whole of the Ottoman Empire's dominions, except Adrianople and the territory between that and Constantinople to their victorious neighbors.

The terms the Turkish delegates presented to the conference as a counter-proposal to the demands of the allies were:

First.—The ratification of the Turco-Bulgarian frontier by making the boundary west of the line now occupied by the troops of the allies in the vicinity of Adrianople.

Second.—The status of Adrianople to be settled by Turkey and Bulgaria direct.

Third.—The cessation of the rest of European Turkey, including Janina and Scutari, to the allies.

Fourth.—The Albanian and Cretan questions to be evolved by the powers.

Fifth.—The Aegean islands to remain Turkish.

The announcement of these terms was wrung from the Ottoman delegates with the greatest difficulty. They came only after Reichad Pasha had reiterated Turkey's desire to shift the responsibility for adjudication of all vital questions to the powers and after the representatives of the allies had registered their unchangeable objections to such a course, and plainly had given the Turks to understand that the failure of the Ottoman delegation to withdraw from serious negotiations would mean a resumption of hostilities.

Yesterday's sitting was the most momentous and exciting since the beginning of the conference. The Greek premier, M. Venizelos, presided and invited Reichad Pasha to present the Turkish counter-proposals.

Reichad Pasha said his interpretation of the badly-transmitted telegrams of the early week had been correct, his government proposing to submit all questions at issue, except Adrianople, to settlement by the powers. This caused an outburst of indignation when M. Venizelos was hardly able to put down. Several delegates shouted that it was not dignified to turn such vital matters into a joke, while others observed that they had not come all the way to London and remained here for three weeks to hear a proposition which might have been made at the time the armistice was signed.

When relative calm was restored, M. Venizelos, Dr. S. Danell, leader of the Bulgarian delegation; M. Konakovich, Serbian; and M. Myuskovitch, Montenegrin, each for their respective countries, declared that they would not accept proposed mediation by the powers and insisted that the Turkish delegates present a practical proposal.

Reichad Pasha then announced that his instructions contained another alternative and requested time to formulate it. After a short recess Reichad Pasha stated that Turkey, desiring to give tangible proof of her love of peace, in deference of advice received from the powers, was ready to make the maximum of possible concessions to the allies by granting a rectification of the frontiers, ceding the territories westward of the line occupied by the allies in the village of Adrianople.

M. Danell arose and said it would be impossible for Bulgaria to renounce her claim to the possession of Adrianople and that he could not accept such an indefinite answer. M. Venizelos said the proposal of Turkey must declare explicitly that the question of Adrianople must be settled independently later. He added that the proposed compromise should include territory not yet occupied by the allies, citing as an instance Janina. M. Myuskovitch made a similar claim on behalf of Montenegro concerning Scutari.

Reichad Pasha then said that the translation of his communication had not yet been finished, but that the first part of it as read naturally meant the cession of Janina and Scutari. He added that the question of Albania and Crete should be solved by the powers who already had taken the matter in hand. Several delegates stated that this meant Turkey's renunciation of both Albania and Crete, but Reichad Pasha replied that his instructions did not extend to that.

M. Myuskovitch observed that the Turkish statement did not lend itself to any other interpretation, the allies

## TEN CANADIANS IN NEW YEAR HONOR LIST

HON. SIR JAMES P. WHITNEY, K. C. M. G.

Since 1905 Premier of Ontario. He was knighted in 1908 on the occasion of the Quebec Tercentenary and is now elevated in rank.

Stage, Literature and Art Entirely Ignored in Distribution of Titles

Premiers of Newfoundland and Ontario Head List Receiving K. C. M. G.

London, Jan. 2.—Ten Canadians are named in the New Year honor list as follows:

K. C. M. G.—Right Honorable Sir Edward Patrick Morris, premier of Newfoundland; Honorable Sir James J. P. Whitney, premier of Ontario.

C. M. G.—Lieut.-Col. W. P. Anderson, of Ottawa, in the department of marine and fisheries; Major Zachary Taylor Wood, of the R. N. W. M. P., Dawson.

King's Police Medal—John C. McRae, late chief of police of Winnipeg, and to W. P. Traynor and H. Brown, \*of the Winnipeg city police.

Knight Bachelor—John Stephen Willison, editor of the Toronto News and Canadian correspondent of the London Times; Hon. Auguste Rea-langers, a privy councillor and one-time member of the federal cabinet and senate, now on the Supreme Court bench; Frederick William Taylor, manager of Bank of Montreal in London.

Among the knights is included Francis Darwin, a son of the late Charles Darwin.

The Earl of Dart, former solicitor of the treasury, and Sir John Allsbrook Simon, the solicitor-general, are made privy councillors.

The stage, literature and art were entirely ignored.

George Thomas Allen, secretary-treasurer of the Commonwealth of Australia; Hon. T. Quinlan, late Speaker of the Western Australia legislature, were created to be Commanders of St. Michael and St. George.

## BORDEN'S COMPACT WITH BONAR LAW

## TO UPHOLD POLICY OF IMPERIAL PREFERENCE

Such an Arrangement Would Be Called Treason, Says London Paper

London, Jan. 2.—The Daily News and Leader professes to know the reason why Lord Lansdowne and Bonar Law threw the referendum on the fiscal question overboard, and why they are now unable to release themselves from the taxation of food.

"When Mr. Borden," it says, "visited England last year the Unionist leaders entered into a compact with him involving for this country the policy of imperial preference, of which the food taxes form an essential element."

"This statement is of a very serious character. In other days such an arrangement would be called treason, and if that word has gone out of fashion the English people have lost their love for liberty and their swift resentment of any encroachment upon it."

## AMBASSADORS HOLD INFORMAL MEETING

## MAY DIVIDE ISLANDS AMONG DISPUTANTS

Five Powers Considering Matters as They Stand With Peace Conference

London, Jan. 2.—Another meeting of the ambassadors of France, Germany, Russia, Austria-Hungary and Italy was held at the foreign office this afternoon and the Balkan situation was again the subject of informal "conversations." The progress made at yesterday's peace conference and the subject of territorial rearrangement and the future of Albania, particularly that relating to the future of Albania, were among the subjects discussed.

It seems likely in the view of the diplomatic circles that the problem of the disposition of the islands in the Aegean Sea will be solved by the thought, will divide the islands among the disputants. Those of strategic importance like Tenedos, Lemnos and Mytilene commanding the entrance to the Dardanelles straits, probably will remain in Turkish hands, others like Chios and Samos are likely to be given practical autonomy under the nominal sovereignty of the Sultan of Turkey, and Greece in all likelihood will obtain possession of the rest, including Crete.

## FIRST PARCEL POST PACKAGE.

Yonkers, N. Y., Jan. 2.—A brindle bulldog was the first parcel post package mailed in Yonkers. It was in a box addressed to William Trivier, of 30 Woodworth avenue. Although live animals are not accepted for transportation through the mails, Postmaster Warren made an exception as it was the first parcel.

## ARRANGEMENTS FOR CHINA'S NEW LOAN

## FIVE POWERS NOT TO PRESS DEMANDS

Customs Returns Sufficient to Pay Boxer Indemnity Up to May Last

Peking, Jan. 2.—A preliminary agreement was arranged to-day settling the details of the proposed six-power loan of \$125,000,000 to China. The new republic is to receive six per cent. below the sale price of the bonds. The Chinese audit department, under the advisement of Herr Romp, the German representative of the international group, will supervise the expenditure of the proceeds of the loan.

China has agreed to an arrangement whereby the powers, Great Britain, United States, France, Germany and Italy, will not press for the recent revolution.

Russia alone claims \$250,000. A mixed commission will assess the amounts due by China for those losses, and the funds for the payment of them probably will be derived from a supplementary loan. An arrangement along this line, however, is subject to the approval of the governments of the six nations interested.

Customs returns for the past year already total about \$7,937,000, and later returns are expected to increase this amount to about \$8,250,000. This amount will be sufficient to pay the Boxer indemnity up to the middle of last May. It is understood it will be allowed to stand over until the proceeds of the loan are utilized to settle the arrears in the indemnity.

## BAXTER IS MAYOR OF TERMINAL CITY

Vancouver, Jan. 2.—T. S. Baxter was to-day elected by acclamation to be mayor of Vancouver next year.

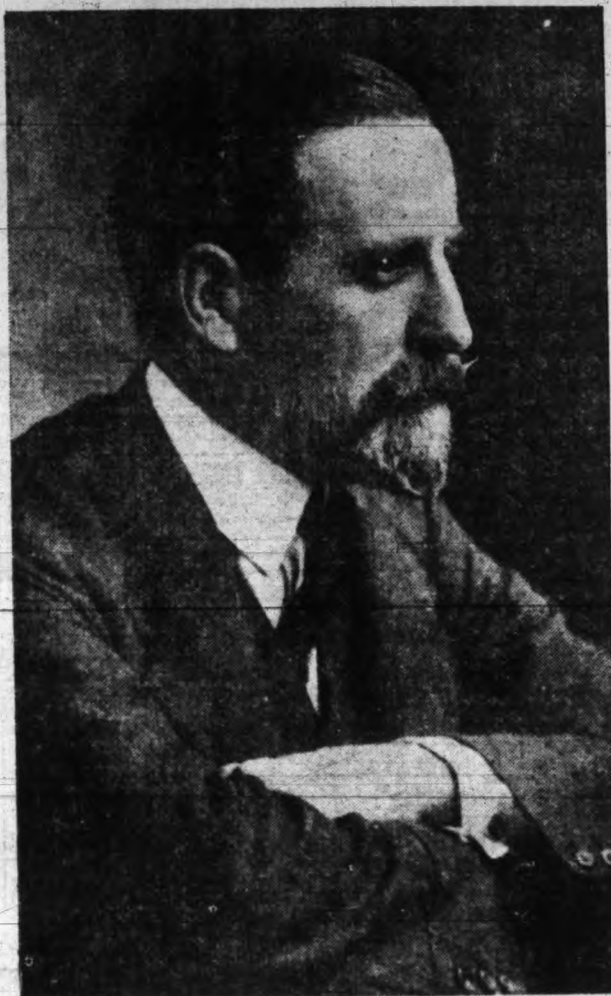

Ex-Mayor L. D. Taylor handed in a nomination paper, which was not properly signed and he was declared disqualified.

Jonathan Rogers was to have been a candidate, but he was likewise disqualified because the mortgage on the property on which he endeavored to qualify was greater than the assessed value, and he had no margin left to qualify upon.

## MINERS ARE SENTENCED.

Poreupine, Jan. 2.—On a charge of being in possession of stolen goods, four Poreupine miners were sentenced by Justice to six months at hard labor by the magistrate to-day. The case arose over the riot at South Poreupine. Three other miners were remanded to Tuesday.

## SIR FREDERICK WILLIAM TAYLOR, K. B.

Manager Bank of Montreal at London, created a Knight Bachelor by His Majesty King George in the list of New Year honors. Born at Moncton, N. B., October 23, 1863; and entered the service of the Bank of Montreal in 1878.

## NEW YEAR LEEVE OF DUKE OF CONNAUGHT

Ottawa, Jan. 2.—His Royal Highness the Duke of Connaught held the usual New Year's levee at his office in the East block at noon yesterday. The Governor-General shook hands in his usual hearty manner with over 800 guests desirous of wishing His Royal Highness a Happy New Year. The number was not as great as that which assembled last year.

## COQUITLAM STATION STAYS ON OLD SITE

## DECISION GIVEN BY RAILWAY COMMISSION

Matter May Be Reopened but Present Shows No Need of Change

Ottawa, Jan. 2.—In the matter of the application of the C. P. R. for the approval of the location of a new station at Coquitlam, the railway commission has decided that the application will be dismissed, and that the station will remain on the old site. At the same time the memorandum of the chairman of the board indicates that the matter is subject to reopening in the future.

After intimating that the change of location was desired for real estate reasons, the memorandum continues:

"The railway company claims, however, that the change was necessary by reason of its railway developments and of the delays which took place at the junction in transferring baggage and express, and it was stated that some fifteen or twenty minutes' time could be saved if the station was moved to the proposed new location where there is greater room for development and opportunity for transfer."

"After inspection I am of the view that while conditions in the future may arise which will necessitate plans somewhat on the lines now proposed by the company, being adopted, these conditions do not to-day exist. Transfer of express and baggage is being made apparently from cars to cars just as rapidly as can be done anywhere with the exception of the cross-over movement, which should not take very long to make. Certainly there is no apparent saving of twenty minutes to be made under existing conditions."

## ENGLISH ELECTION THOUGHT POSSIBLE

## IS SURMISED FROM ASQUITH'S QUESTION

Dissension in Unionist Ranks Offers Opportunity to Put Matters to People

## AMENDMENT IS LOST ON ULSTER EXCLUSION

Premier Says Ireland Must Be Treated as a Whole and Not Divided

London, Jan. 2.—The possibility of an early general election in the United Kingdom is widely spoken of to-day as a result of Premier Asquith's pointed question to the Unionists in the House of Commons yesterday when he asked them to declare clearly what their attitude would be if the Home Rule bill was submitted to the electorate and approved. The reply of Bonar Law, the leader of the opposition, that in that case the Conservative party would not encourage the Ulsterites to resist the measure is regarded as significant.

It is thought in some quarters that the government would be glad to take advantage of the present dissensions in the Unionist ranks on the subject of tariff reform in order to obtain a clear mandate from the country on the questions of Home Rule, Welsh disestablishment and the Franchise Reform.

It is regarded as quite possible that, should the demoralization in the Unionist ranks spread, the government might suddenly dissolve the House of Commons and rush a general election in the course of February.

An attempt was made yesterday to instill some New Year vigor into the Home Rule debate in the House of Commons. The members from Ulster proposed the exclusion of the northern province of Ireland from the operations of the measure.

Sir Edward Carson, in moving an amendment to that effect, pleaded for serious consideration of the question, which might, he said, be vital to the success of the bill and to the whole constitution of the United Kingdom. It was, he said, a question whether the House of Commons had made up its mind to drive Ulster out of the constitution under which it desired to remain. Never, he concluded, without the use of force, could Ulster be forced to submit to the degradation of a parliament in Dublin, which was abhorrent and loathsome to them.

Premier Asquith followed Sir Edward Carson, and immediately made it quite clear that the government would not accept the amendment to the Home Rule bill. "It would wreck the bill," he declared, "as the effect of the amendment would be to exclude several Nationalist counties from the operations of the act. Ireland must be treated as a whole on the principle that what was beneficial for the country as a whole could not in the long run be injurious to any part thereof."

The premier asked the Unionists to declare clearly what their attitude would be if the Home Rule bill in its present form was submitted to the electorate and approved.

Bonar Law, leader of the opposition, Conservative party would not before a resolute resistance to it by the Ulsterites, but if the government attempted to force the measure through against the wishes of the people of Ulster, he would heartily assist them. Mr. Law said he believed the Ulster loyalists would rather submit to being ruled by a foreign country than by the Nationalists.

Winston Churchill, who, when he arose to address the chamber, was greeted with loud opposition cries of "rat" and "traitor" twitted Mr. Law for insinuating the loyalist Ulstermen would rather be annexed by a foreign country than continue their allegiance to the crown if the bill were passed. On division the amendment was defeated by a vote of 294 to 197.

## PRIME MINISTER BACK AT OTTAWA

Ottawa, Jan. 2.—Right Hon. B. L. Borden and Mrs. Borden returned from the South yesterday after a two-weeks sojourn at Atlantic City, N. J., New York and other points. The prime minister came back in the best of health after a thorough holiday, apart from the business worry and official duties. The prime minister will, from this time until the session opens, be engaged in parliamentary business.

## NATAL AT NEW YORK.

New York, Jan. 2.—The British cruiser Natal, bringing home the body of William Hall, late ambassador to Great Britain, reached Nantuxet Lightship at 9 o'clock this morning. She was met there by the escort of six United States warships sent to convey the funeral ship to this port.

## SEVEN BY-LAWS PASS TORONTO ELECTION

## HOCKEN IS MAYOR FOR ANOTHER TERM

Plebiscite on Tax Reform is Carried by Four to One Majority

Toronto, Jan. 2.—Toronto ratepayers yesterday carried seven by-laws providing for the expenditure of \$12,946,000. They were as follows:

For a new waterworks system at Scarborough, \$6,667,000; for a viaduct at Bloor street, to the east end of the city, \$2,500,000; for a garbage disposal plant, \$1,000,000; for the extension of the filtration plant at the island, \$1,475,000; for a storm overflow sewer-children's hospital, \$200,000; for the National Sanitarium Association for the cure of consumption, \$200,000; for good roads in the country, \$105,000.

H. C. Hocken, who was elected mayor to succeed Mayor Geary, was re-elected by a tremendous majority. Thomas Foster, T. L. Church and J. C. McCarthy were re-elected to the board of control. John O'Neill, who sat in the city council last year, was elected to the board, replacing Comptroller Maguire.

The successful candidates for the city council and board of control were: Board of control.—W. D. Robbins, re-elected; A. E. Walton, W. P. Hubbard, S. Morley Wickett, C. A. Risk, H. A. Rowland, re-elected; Marmaduke Rawlinson, re-elected; A. E. Burgess, David Dell, John Wadsworth, Jr., re-elected; George Weston, re-elected; George McMurich, re-elected; J. W. Meredith, John Dunn, re-elected; J. T. V. May, re-elected; C. H. Mayhew, F. G. McBrinn, re-elected; David Spencer, re-elected; A. J. Anderson, re-elected; Samuel Riding, re-elected.

By a vote of four to one a plebiscite on tax reform was carried in the affirmative. The question was whether or not the voter was in favor of applying legislation to assess buildings, business and income on a lower basis than on income.

## MILD WEATHER IN EASTERN CANADA

Montreal, Jan. 2.—The weather in this part of Canada is so mild that the trees have begun to bud, and the St. Lawrence river is absolutely free from ice. Never before since this province was settled has the river been open later than January 1. A country correspondent reports seeing a butterfly.

## GLOBE FIGURES GIVE FOREIGN TRADE RISE

BILLION DOLLARS IS BUSINESS FOR 1912

Official Borrowing Twenty-One Million Less Than in Previous Year

Toronto, Jan. 2.—Canada's foreign trade crossed the billion-dollar mark last year. Canadian railroads earned \$201,000,000, the Western wheat crop reached 200,000,000 bushels and 394,574 new people were added to the population of the country, according to the annual financial survey of the Globe. In the same period various government and municipal corporations and private borrowers secured \$200,000,000 abroad as compared with \$221,000,000 in 1911.

The large new stock issue of the C. P. R., a portion of which was subscribed at home, is not included in this year's account of borrowings.

## TURKS GIVE WAY TO ALLIES AT CONFERENCE

(Continued from page 1.)

The negotiations will be broken off, according to Dr. S. Danef, the chief of the Bulgarian delegation, unless the map which the Turkish delegation is now preparing showing the proposed boundary between Bulgaria and Turkey, should prove to be in accordance with the terms laid down by the allies.

Dr. Danef in the course of an interview to-day said: "The position of affairs has not changed so much for the better as people seem to imagine. It must be borne in mind that from the beginning Turkey has always said she would make certain concessions in Macedonia and Epirus and in part of the province of Thrace. There remains the question of Adrianople, which is one of the most vital points in the negotiations."

"If we find at to-morrow's meeting of the conference that the Turkish map is not in accordance with the terms offered by the allies and is unsatisfactory to us, the negotiations will be broken off."

## BARONETCY SAID TO CONFIRM INVENTION

THUNDERER FITTED WITH FIRE DIRECTOR

Honor for Vice-Admiral Said to Mean Acceptance by the Admiralty

London, Jan. 2.—The Daily Telegraph says the baronetcy conferred by King George upon Vice-Admiral Sir Percy Scott, which was announced in the New Year's honors, is regarded as confirming the report that the Admiralty has decided to adopt Admiral Scott's invention, a "fire director" for the entire fleet.

It is said by the Telegraph that the guns of the battleship Thunderer, which is fitted with a Scott director, have been fired with an accuracy 200 to 400 yds. greater than those on the Orion, which has no director. The invention enables the simultaneous discharge of the ten heavy guns of a Dreadnought.

## GARMENT WORKERS MAY ADD STRENGTH

BUSHMEN EXPECT TO BE CALLED OUT

Commercial Bodies Joining in Effort to Bring About Settlement

New York, Jan. 2.—The United Garment Workers of America, who are on strike to the number of 90,000 for more pay and better work, ranks within the next 24 hours approximately 5,000 bushmen employed in local department stores.

The strike order to the bushmen workers employed to make alterations in ready-made garments, if issued, the strike leaders declare, will be in an effort to reach the retail trade and bring the entire garment making industry within the scope of the situation.

Meantime three agencies—the state board of mediation and arbitration, the chamber of commerce and the international peace forum—are endeavoring to bring about an adjustment of the differences between the strikers and their employers. A committee met to-day at the strikers' headquarters to discuss terms of agreement with certain manufacturers who have shown an inclination to yield to the demands.

## ORDER ALLOWS YEAR FOR IMPROVEMENTS

PROVINCIAL EXECUTIVE ISSUES ITS DECISION

Victoria & Sidney Railway Must Make Extensive Changes

The decision of the provincial executive in connection with the Victoria & Sidney railway and Victoria Terminal railway is announced. For months past an order has been in course of preparation by the government in answer to the complaint of the city of Victoria. The order is very lengthy and among its provisions are matters of importance to the city and district. Estimates of the cost of carrying out the betterments involved naturally differ, although L. G. Gilman, assistant to the president of the Great Northern railway, the operating railway, has publicly stated that at least \$100,000 is required to bring the road-bed into shape.

Among the items which affect the city streets are the following:

"The railway company is prohibited from unloading freight from cars standing on the track of the company to the south of Fisguard street;

"The changes of grade from Pembroke street south on Blanchard street to the end of the track at Cornerant street shall be left to the direction of the chief engineer of railways, the changes authorized by him to be carried out to his entire satisfaction;

"The railway company is permitted to retain the weighing scales where these are located at present on Blanchard street, as a necessary adjunct to the handling of freight;

"The railway crossings at Tolmie and Topaz avenues to be made to conform to those streets when paved and surfaced with concrete and planks, laid to the full width of the pavement, to correspond with the work already done by the company in the cases of the railway crossings at King's road and Bay street;

"The track along Ross avenue shall be raised to conform to the present grade of that street on either side thereof;

"Temporary level crossings shall be made at Fisguard, Chatham and Pembroke streets, and these crossings shall be permanently paved hereafter in the same manner as the crossings at King's road and Bay street, as soon as the before-mentioned streets have been paved by the city;

"No railway crossings shall be permitted on the line of Herald street to connect with Pioneer street, as a crossing here would be dangerous. Traffic passing to the east from this street to be diverted by way of the street dedicated to the company in the rear of the railway station, to Fisguard street;

"Permission is refused the city to assess the company on the local improvement plan in connection with the paving of the streets along which the railway passes."

The companies concerned are to improve the alignment and grades throughout, ballast the track, use better rail material, repair bridges and culverts, and increase the rolling stock. The last named is to be increased (1), by providing locomotives of greater power and efficiency than those now in use, and of the latest approved design; (2), new and modern passenger coaches, fitted with the latest approved sanitary closets or toilets for both men and women, together with wash basins; (3), new mail express and baggage cars, fitted with the necessary and suitable closets; and (4), new box and flat cars, all to the number required to operate the railways efficiently and to meet the convenience of the traveling public and the volume of business offering. All the rolling stock enumerated herein shall be fitted with the most up-to-date and car ferry landing stage at Sidney is to be improved and made safe, and the grade of the track leading thereto shall be reduced; Twelve months are allowed to carry out the improvements.

## HOW THE LAST SANDS RAN FROM THE GLASS

1913 Was Ushered in With Great Merriment and Revelry

The year 1912 went out like a roaring lion on Vancouver Island. Scarcely in the memory of the oldest inhabitant have there been such gales as swept intermittently and unbridled over Victoria and her environs in the last thirty-six hours of the old year's suspension. The wind softened down appreciably as the last sands slowly fell in the glass, and the new year came in quietly, serenely, gently as a lamb.

The old time custom of seeing the old year out was more popularly observed than ever before. Merry crowds thronged the sidewalks on Tuesday evening and King Carnival reigned supreme. Government street and Yates street resembled a Paris boulevard on a feast day. The hard sidewalks were softly carpeted with confetti which had been thrown about in clouds by the crowds in the streets; people jostled one another in merriment and humor and yet the order that prevailed everywhere was one of the most remarkable features of the evening's festival enjoyment.

At the Empress hotel the approach of 1913 was hailed by the sudden plunging of the ball-room into darkness just a few minutes before 12 o'clock, a light-

ed-clock showing the progress of the last minutes. Promptly on the stroke of 12 a lighted aeroplane bearing the figures—1913—sailed slowly down the whole length of the room, scattering ribbons as it went.

At the Westholme Grill a twelve-piece orchestra under the leadership of Professor Turner, discoursed sweet music to a merry crowd; the popular manager, F. P. Fretter, had all arrangements well in hand. The grill was crowded from end to end the whole evening. Lights went out just before midnight, the crowd singing the National Anthem and Auld Lang Syne. An excellent programme was afterwards rendered when Miss Elsie Edwards (vocalist), and Madame Burnett sang exquisitely; Capt. Jones, the prize piper of Edinburgh, performed on the national instrument; Dickie and Gerard, the well-known comedians, delighted the audience with their quips and humor.

In the Oriental quarter the Chinese celebrated New Year after their kind. The band serenaded throughout the quarter and bright eyes danced just as merrily under the slanting brows of visitors from far Cathay as those of the westerners making revel in the main streets of the town. Gaily colored lanterns burned in the houses, or flitted like fireflies through the streets, while the five-striped flag of the republic waved everywhere. This is only the second time in the history of the Chinese race that New Year has been celebrated on the same day as it is throughout Christendom.

The Hindus also made merry; they mixed with the revelers on Yates street, Government street and Douglas street in large numbers. For once their deep, dark eyes lost their speculative look and became bright and happy as the carnival spirit clove its way deep into them. They laughed, happy as children, when some passer-by showered them with confetti, or as often happened, took off their turbans and filled them with the discs of gaily colored paper; they would utter queer, quaint cries and rub the confetti into their long hair or distribute it impartially over their clothes. The grey light of dawn was in the sky before the last revelers made their divers ways home, and before quiet settled down again on the city, to be succeeded by the first bright sunlight of the New Year.

## GOVERNMENT GETS NORWEGIAN EXPERTS

CHRISTIANIA GRADUATES  
FOR FORESTRY WORK

Provincial Authorities Wrote to  
Government of Norway Asking  
for 50 to 80 Recruits

Two young Norwegians, Bjarne Mamen and O. L. Wingerel, arrived in Victoria yesterday from Christiania to enter the employ of the forestry department of the provincial government.

Both men are graduates of the university at the Norwegian capital and came to British Columbia as a result of a letter written by the provincial government to the Norwegian government, asking for from fifty to eighty forestry engineers. Already there are three men of this nationality in the forestry department and these two, if they come to terms in their interview with the minister this morning, will make five.

"Norway has been practising forest conservation for sixty years," said Mr. Wingerel. "Your government wants us to come out and show you how we do it. All the north European countries have large forestry departments and in Norway the science is very highly developed."

"There are about 100 graduates in forestry at the University of Christiania every year and the profession is becoming overcrowded at home. Norway is full of well-educated young men; in fact, any man who wants an education has no excuse for not getting it, as it costs him practically nothing."

Asked whether forestry engineers and other professionally-trained young men could make more money here than in Norway, Mr. Mamen said that it was hard to make a comparison because living was so much cheaper in Norway, but his impression was that greater returns could be made here. He did not know of any other forestry experts who were coming but here in the near future, however.

ELECTRIC WIRING BY-LAW.

Its Passage Will Make Room for  
Measure Regulating Moving  
Picture Shows.

The passage of the electric wiring by-law, when it is formally approved on reconsideration, will enable the second by-law to be taken up, that for regulating the moving picture shows. This by-law is prepared but was withdrawn by the electric lighting committee on account of the fact that the fundamental principle involved in that of inspection. As the committee could not get the council to see eye to eye with it, the measure was withdrawn in toto.

The moving picture shows are located in buildings which cannot by their condition comply with the full measure of the requirements of construction as laid down for places of amusement in the new building by-law. The by-law was not made retroactive, but it has been the desire of the building inspector's office to bring the buildings up to the standard for theatres, gradually, but nevertheless effectively, in the long run.

INCREASED BY \$5,276,972.

Bank Clearings for December, 1912,  
Almost Half Greater Than for  
December, 1911.

The total bank clearings for the city of Victoria for the month of December, 1912, were \$17,639,315. This is almost half as great again as the clearings for December, 1911, the figure for the last month of 1911, having been \$11,733,743. Thus the increase for December, 1912 over the total for December, 1911 was \$5,276,972. The great expansion which took place during the past year may be realized when it is recalled that the figures for December, 1911, were but \$1,609,573 ahead of those for the week ending December 31, 1912, a week during which the effects of the holiday were felt, \$2,202,524.

WILL MEET IN VICTORIA.

Western Canada Irrigation Association  
Will Gather in City Next Week.

A special meeting of the Western Canada Irrigation Association has been called at the Empress hotel on Thursday, January 2, in accordance with the resolution of the annual convention held at Kelowna in August.

The delegates will sit that day and the following day, and among the officials who are expected are Hon. Duncan Marshall, president, and J. S. Dennis, chairman of the executive committee, who is the director of the Natural Resources Branch of the Canadian Pacific railway.

FOUND VERDICT OF SUICIDE.

A verdict of suicide was returned by the coroner's jury which inquired into the circumstances surrounding the death of Harry Helliwell, the former British soldier, who was found with his throat cut in his room in the Commercial hotel on Monday afternoon. Joseph Lucas, proprietor of the hotel, testified to finding him on the floor of his room fully dressed and with the razor still clutched in his hands. Coroner E. C. Hart presided at the inquest.

### THE INEVITABLE.

New Year's Day arrived according to schedule; so did the Premier's annual message. Both are inevitable, and, like the Siamese twins, they come together. Separate them, and both would die. To preserve New Year's Day in the calendar we must have the message; to preserve the message we must have New Year's Day. In one respect the Premier's deliverance reminds us of a vivid Roosevelt presidential outpouring. Both cover many lines in the newspapers, the Premier's message yesterday taking up at least ten columns, or seventeen feet, of our contemporary's space. It reviewed the progress of the year in the province from the standpoint of the administration and through it all there ran a theme of politics. The tendency of a pleasure-loving public to forget the spring from which wells forth incipient streams their many blessings was obviously in the Premier's mind when he dictated the message, and he determined to bring them again face to face with the stern realities of life. He shrewdly divined that if anything would steady their wayward New Year feet, eighteen inches of type would. But we fear Sir Richard was only partially successful. The joyful abstractions of the night before had the usual effect of producing that profound melancholy the next morning which made sustained mental exercise undesirable, not to say impossible. Two columns might have been a pleasure and a recreation, but ten columns was a penance, and penances are always unpopular. Besides, he was somewhat maddened. He should have lightened the burden with a few well-selected bon mots where the weary traveller could have changed horses. As it was he overshot the mark.

### OUR TITLES.

Is Canada developing a titled aristocracy? We have nearly a hundred barons, baronets and knights, not to speak of an equal number of Canadianians who have received orders of a secondary character. Practically all these distinctions have been conferred in recognition of exceptional achievements in statesmanship, letters, departmental administration, industrial and military activities. The highest title held by a Canadian is that of the Earl of Elgin and Kincardine, K. G., who was born at Monklands, near Montreal, in 1819. Baron Aylmer, K. C., head of the great ship-building firm of Harland & Wolff, was born in Quebec. The title of Baron de Longueuil was granted by Louis XIV. of France and recognised by Queen Victoria in 1859. Other Canadian members of the peerage are Baron Mount Stephen, Baron Strathcona and Baroness Macdonald, widow of Sir John A. Macdonald.

But we have not begun to reach our maximum capacity for absorbing titles. More are expected in a few days, and ultimately they will become so numerous that a prominent man without one will be a rara avis. Col. Hughes does not believe they are coming rapidly enough, so he is trying in a secondary and less pretentious way to supply the deficiency. He is distributing honorary colonelcies with a prodigality that would make the House of Tudor green with envy could it behold him. He has not spared even the clergy. Heads of large denominations in the East are honorary colonels; railway magnates, politicians—in fact, all upon whom the minister's glittering eye may chance to fall when he is in the mood, are temptingly swept into the vortex of militarism. It is said that now and then when the press gallery men at Ottawa see the colonel's martial figure approaching them they run away and hide. That is why there are few newspaper men on the honorary colonel's roll.

who have refused knighthoods, albeit with every respect. On the other hand, there are others who would walk across the Atlantic after them if they could. It all depends upon the point of view. Some regard them as evidences of distinction, as the soldier does his medal. Others look upon them as glittering baubles for public show; so there you are. In any event, the stream has flown more copiously to Canada from London than to the other dominions. We can show more titles per acre than Australia.

### AN UNUSUAL SITUATION.

The trade treaty between Russia and the United States terminated yesterday. It was abrogated by the United States Congress because of Russia's attitude on the passport system. For the first time in eighty years there will be no agreement to govern trade relations between these two countries, which is an unprecedented situation. Except as a consequence of war, the United States have never before undertaken to continue on friendly relations with another nation in the absence of any treaty agreement after they had once enjoyed that connection.

Although some anxiety exists on the part of the large business interests of the two countries, trade is likely to continue unimpaired. No tariff discrimination is expected, although Russia contemplates making some general revisions which will affect the importation of agricultural implements and machinery, but this will not be aimed specifically at the United States. The sole effect of the termination of the treaty as far as the United States are concerned will be to deprive Russian consuls of the right to administer estates of Russians dying in America and to deal with disputes between the captains and crews of Russian vessels in United States ports.

### MERCHANTS BANK OF CANADA.

Nothing reflects the prosperous condition of Canada in the past year so convincingly as the favorable reports of our banks. In the Times on Tuesday appeared a review of the proceedings of the annual meeting of the Merchants Bank of Canada, the outstanding feature of which is the highly satisfactory statement presented by the directors. This shows that on an average paid-up capital of \$4,488,322 there was earned the sum of \$1,338,844.62, which with the balance brought forward from last year made \$1,397,722.50 to be disposed of. A ten per cent. dividend on the paid up capital was declared. The sum of \$50,000 was contributed to the officers' pension fund, the reserve received \$460,000, and \$160,000 were written off bank premises, leaving \$148,718 to be carried forward in the profit and loss account. During the year the reserve was augmented by the premium on new stock, making a total reserve of \$6,410,760, more than 95 per cent. of the paid-up capital. Twelve branches were opened during the year, seven of which were in Alberta and Saskatchewan. The shareholders are to be congratulated upon the excellent showing of the bank in the last twelve months.

### ASIATIC IMMIGRATION, ETC.

In his New Year's message yesterday the Premier said in his reference to the question of Asiatic immigration: "We have every reason to feel that British Columbia will presently receive from the federal authorities the protection she has long been entitled to." He adds that if there are scruples on the part of Japan and China, cannot Canada and the Empire say to the Oriental nations that we are prepared to accept the same prohibition as against our own people that we propose to place against theirs? He then makes the observation that we can easily develop our commercial and business relations with these nations, but our social and economic intercourse it will be always impossible to expand.

Of course, in this the Premier was merely putting a few frills on an ancient issue to make it presentable for political purposes. Nevertheless it is the first minister of a province who is speaking, and some notice will be taken of what he says. But why "Canada and the Empire" instead of "the Empire"? Since when did he consider Canada an adjunct? Great Britain is the principal partner in the Empire. Her capitalists have hundreds of millions invested in Oriental countries. They finance Oriental railroads, mines, and innumerable other industries; they are financing the new Chinese republic; they financed Japan; their great steamship lines ply between European and American ports to Asian countries. Great Britain's trade with India is three times as great as her trade with Canada. She has a defensive and offensive alliance and trade treaty with Japan, one of the conditions of which is that the subjects of one country shall have free access to the other. Does the Premier expect us to believe that Mr. Borden has succeeded in inducing Great Britain to accede to any arrangement that will debar her people from social and economic intercourse with

COAL DEALERS

the Oriental nations? As a matter of fact, the subject of immigration is for each Dominion to deal within its own interests, and if there is one thing certain in this world it is that Great Britain will keep out of the question. That being true, why does the Premier say "Canada and the Empire"?

The only phase of the Asiatic immigration question which presents any serious aspects at present has to do with the Chinese. Unquestionably the head tax of late years has not been effective. Eventually an arrangement may be made along the lines of that negotiated by Hon. Rudolph Lemieux with Japan. This has proved satisfactory. But it is a safe prediction that the province will think a lot before cutting off the million and a quarter it now receives annually as its share of the Chinese head tax fund. The government is touchingly tender with its sources of revenue.

What a shock it must have been to the Minister of Finance to learn that the Premier had handed out his budget speech as a New Year's message. He is entitled at least to the satisfaction of making a dignified protest.

There was an ominous omission from the message. Better terms and the Asiatic question received dignified positions, but no reference was made to the navy. And yet only three months ago the Premier insisted upon naval protection for this Coast as insurance upon the large interests centred here.

If it is true militant suffragettes tampered with railway signals in England it is time the authorities laid a heavy hand upon them. Violence of that kind would put them on a par with the dynamiters recently convicted in Indianapolis. Train wrecking is a dangerous argument.

More knighthoods for Canada. We should now have a sufficient number of these valiant gentlemen in our midst to hold a tournament of our own. We should be an inspiring thing for mere "churls" and "villains" of the press, for example, to behold Sir Hugh Graham, of the Montreal Star, and Sir John Willison, of the Toronto News, armed cap-a-pie, running a fierce joust against each other for the favor of that Queen of Beauty, Miss Canada. (Lady Canada would not sound quite right.)

### SISTER ON THE WAR-PATH.

Little Tommy, at the "movies," saw a tribe of Indians painting their faces and asked his mother the significance of this. "Indians," his mother said, "always paint their faces before going on the war-path before scalping and tomahawking and murdering."

Next evening, after dinner, as the mother entertained in the parlor her daughter's young man, Tommy rushed downstairs, wide-eyed with fright. "Come on, come on, mother," he cried. "Let's get out of this quick, sister is going on the war-path."

### HISTORICALLY CORRECT.

Everybody's. President Taft was out for his afternoon walk in Washington one day when a flaxen-haired little girl ran out in front of him, held up her finger, and exclaimed in a shrill baby voice: "I know who you are!" The President, thinking it not at all unusual that she should possess this information, but willing to gratify her, asked: "Well, who am I?" "Aw," she said, teasingly, "you're Humpty Dumpty."

### OVERHEARD.

A well known judge was one day walking with a friend, when a lady passed. "What a beautiful lady," exclaimed the judge. The lady overheard the remark, and, looking round, smilingly said: "What an excellent judge."

**Hospital Greetings.**—The Sister Superior and the Sisters of St. Joseph's hospital offer sincere and heartfelt thanks to the kind friends who sent Christmas greetings and donations, and wish one and all a thrice happy and prosperous New Year.

**St. Barnabas' Entertainment.**—The Sunday school pupils of St. Barnabas' church will give a repetition of their amusing performance of "The Teddy Bear Opera" this evening at 8 o'clock in the church schoolroom, this to be succeeded by a Cinderella dance. The proceeds will be added to the Sunday school fund.

**Extension of Time.**—The Board of Railway Commissioners has extended for another three months the time during which the spur from the Esquimalt & Nanaimo railway may be constructed into the Swift's Canadian Packing Company's premises at the corner of Store street and Telegraph street.

**Evangelist at St. Mary's.**—This evening special Christmas eve service will be held in St. Mary's church, Oak Bay, at 8 o'clock. Rev. G. Andrews will be the preacher, and the collection will be in aid of the church building fund and the Jubilee hospital. The service will comprise the specially composed anthem, "Come, Ye Faithful People," and a number of carols.

**Services at Christ Church.**—The New Year's Day services at Christ Church cathedral consisted of celebration of Holy Communion at 7 a. m. and 8 a. m., the celebrants being the Right Rev., the Bishop and the Rev. the Dean, and matins and Holy Communion at 11 o'clock, the Dean and Rev. W. H. Dawe conducting the offices.

**Why, O Why?**—A signal of dire distress was flying at the head of the huge flag pole in the grounds of the parliament buildings yesterday. For several hours the Union Jack braved the breeze—upside down! Passersby wonderingly looked up at the flag and pondered what might be amiss. Was it really a signal of distress or merely a symbol of political embarrassment in the coming session? The echoes did not answer.

**Reception to Miss Davis.**—As it has been found that the large number wishing to welcome Miss Dorothy Davis after her organizing tour in the interior of the province is greatly in excess of the limited number for which a banquet had been arranged by the Political Equality League, it has been decided to change the form of welcome to a reception, which will be held at the Ritz hotel on Friday evening, January 3, from 8.30 to 10.30. Those wishing to get tickets can obtain them at Hibben's and at the Victoria Club. Among those who have promised to take part in the programme are Mrs. H. C. Hamilton, Mr. and Mrs. Michael Hallward, Miss Josie Beck, and Miss Gillespie, while the president, Mrs. Gordon Grant, will make the address of welcome.

## DALLAS ROAD FORESHORE.

Protection of Roadway at Dangerous Point is Proposed Early in Present Year.

It has been determined to appropriate another \$1,000 towards the improvement of the cribbing at the Dallas road, near the end of Dallas avenue, which has become unsafe.

The board sidewalk on the beach side shows a tendency to collapse. Below it is a series of cribs carrying the weight of the roadway. The parks committee brought in a report to the city council recently asking that \$2,000 be appropriated this year for the work and that a commencement should be made as soon as possible when the season would permit. An examination has shown that more extensive works are required, and accordingly another \$1,000 is to be set aside for filling in the cribbing and for the construction of steps to the beach at this point, where a sharp drop occurs.

**Premier Accepts.**—Sir Richard McBride has cabled to London accepting the vice-presidency of the British Navy League.

**Capital Athletic Club.**—The next ball to be given by the Capital Athletic Club will take place on Monday evening, January 27.

**Obstructed Road.**—Frank Leroy, a builder, was fined \$5 by Magistrate Jay this morning for obstructing the road with building material.

**Automobiles Collided.**—The automobile belonging to G. Crooke, of 128 Pemberton building, was badly damaged New Year's Day when it collided with the car of A. McCrimmon, of 1422 Camosun street, at the corner of Fort street and Blanchard street. None of the occupants of either car were hurt.

**Obtained High Mark.**—In the examination of the Associated Board of the Royal College of Music and the Royal Academy of Music recently held in Victoria, Margaret Priestley, pupil of Miss Lilly, passed with 91 marks out of a possible 99, the subject being "Fundamentals of Music in the School Grade."

**Doctor is Improving.**—Dr. C. J. Fagan, so the Hon. Dr. Young was informed by a cablegram received from France on Tuesday, is making a very satisfactory recovery to health and anticipates returning to Victoria before the end of the present month to resume his duties as secretary of the provincial board of health.

**Fifth Regiment Band.**—The third concert of the present season will be given on Sunday afternoon next at the Empress theatre by the Fifth Regiment band, which will be assisted on this occasion by Miss Muriel Griffiths, soprano; D. C. Hughes, tenor; and Miss De Sylva, reader. By special request a number of Welsh songs will be given, and one of the orchestra numbers will be a descriptive nautical fantasia.

**Enters Field Here.**—Mr. Clark, manager for the Fleischmann Yeast Company, of Seattle, has leased a store on Yates street from R. Hetherington, and will make it the headquarters in this city for the company. The firm has come to Victoria to stay, according to Mr. Clark, having found the prospects very attractive. The company expects to find a ready market in this city for its up-to-date product, which has proved so popular in all the coast cities.

**Young Women's Club Entertains.**—A very enjoyable evening was spent at the Metropolitan church schoolrooms last night when the Young Women's Club entertained a number of their friends and strangers to Victoria, about seventy people being present. The evening was spent in playing informal games, and in listening to the excellent programme of music which was supplied by Messrs. Francis, Thomas, and Holling. Miss Bromley-Jubb, on behalf of the society of which she is president, welcomed the guests, amongst whom was Rev. Dr. Scott, pastor of the Metropolitan church.

## INAUGURAL BALL A GREAT TRIUMPH

ENJOY NEW YEAR'S EVE  
AT THE EMPRESS HOTEL

Merriment Was Infectious at  
Notable Event Which Opened  
the New Ballroom

The inaugural ball held in the new ballroom at the Empress hotel on New Year's eve was the smartest as well as the most delightful function of its kind that has ever taken place in Victoria, and the company which was responsible for the erection of the ballroom is to be heartily congratulated on the enterprise which prompted it to make this addition to one of its largest hotels, and the generous hospitality which was extended to its guests on the occasion of its opening.

Long before the hour for dancing the guests commenced to arrive at the hotel, many, after filling their programmes sauntering through the rooms which were placed at the disposal of the dancers and glancing into the beautiful ballroom with its numerous great globular chandeliers of scintillating crystal and tempting expanse of floor. The sitting-out rooms were specially arranged for the comfort of the guests, these being at the right-hand side of the ballroom, and consisting of a spacious hall and two reception rooms, which, for the occasion, had been thrown into one by the removal of the intervening panels. A beautifully decorated Christmas tree occupied the centre of the room, and deep luxurious chairs gave a delightful appearance of comfort to the sojourners in the embrasures. In addition to these new rooms were the palm-room, where refreshments were obtainable throughout the evening, the foyer of the hotel, and the drawing-room, all of which were thrown open for the dancers and other guests who had come to spend the evening.

About 250 dancers were on the floor shortly after 9 o'clock, when dancing commenced, and at 11.30, when the call for supper was given, it was a very joyous assemblage that seated itself in the brilliantly-lighted dining-room, festive with its decorations of holly and red carnations, the tables being particularly gay with their brightly-colored Christmas crackers and souvenirs. The room soon presented the appearance of a carnival as each person donned the curious looking caps and masks which were found in the crackers, the most dignified of the guests submitting to the transformation of grotesque adornments and paper hoods, while whistles, tin-horns and dinging-plugs called intermittently from various quarters in the room. At one end of the room an enormous dial showing the hands of the clock moving toward the magic hour of twelve, was disclosed by the drawing aside of curtains, which also revealed a miniature aeroplane. When the hands of the clock had crawled to the hour the aeroplane was suddenly released from its moorings and glided gracefully across the room over the heads of the cheering merry-makers, the illuminated "1913" beneath its propeller glowing with its message of good wishes.

This and the turning out of lights was the signal for the singing of "Auld Lang Syne," which was given with much enthusiasm by the guests, most of whom mounted their chairs in time-honored fashion and sang the familiar air, all linking hands round the tables. Later the fun waxed fast when vari-colored paper streamers shot across the room, and Father Time with grizzled beard and scythe over shoulder wandered in and out among the tables, while numbers of the diners left their seats to make a tour-de-vieille amongst their friends to wish them a happy New Year. Meantime each little party of guests drank a toast to its special New Year ambition or other enthusiasm of the moment, this being capped by the loyal toast to "The King," which was proposed by the Hon. Mr. Eberts above the din of tooting horns, shrill whistle calls and the singing of "For He's a Jolly Good Fellow."

At about 12.30 dancing was resumed, and was kept up until after 3 o'clock, when the strains of the Home Wals and "God Save the King" terminated this "maddest, merriest" celebration of the passing of the Old and the coming of the New Year. The music for the evening was supplied by the Empress hotel orchestra, augmented by the addition of several other instruments, and this, like the supper and the splendid management of the entire function, was excellent. Another feature which calls for special mention is the courteous and attentive services of the waiters and cloak-room attendants, while in the genial presence of Mr. and Mrs. Jackson the guests felt assured from the very beginning of the very best of New Year's Eve celebrations.

The following is a complete list of the guests present:  
The Hon. D. M. Eberts, Mrs. and Miss Eberts, Hon. Dr. Young, Judge and Mrs. Lampton, Mr. and Mrs. Helms, Mr. and Mrs. Stevens, Mr. and Mrs. Lugin, Mr. and Mrs. R. E. Grant, Mr. Blakemore, Mr. and Mrs. G. A. Ford, Mr. and Mrs. E. W. Hume, Mr. and Mrs. V. Elliot, Mr. and Mrs. W. H. ## NEW TRAM REGULATIONS

On and after January 1, 1913, certain alterations will be made in the regulations of this company covering the transportation of passengers over its lines.

IN EACH CAR WILL BE PLACED A CARD STATING ITS CARRYING CAPACITY. WHEN THIS NUMBER OF PASSENGERS ARE ABOARD A SIGN, "CAR FULL," WILL BE DISPLAYED ON THE REAR PLATFORM AND THE CAR WILL NOT STOP TO TAKE ON ADDITIONAL PASSENGERS UNTIL PERSONS HAVE LEFT THE CAR, AND THEN ONLY TO THE NUMBER LEAVING.

RIDING ON THE STEPS OF CARS WILL BE STRICTLY PROHIBITED.

The company is doing all that "man and money" can do to provide an adequate tram service which will guarantee convenience and safety for its passengers, and this policy will be continued, in the line of the provision of additional cars.

After New Year's Day riding on the steps, bumpers or fenders of cars will be a violation of the provincial regulations and such action cannot be permitted by the company. As speedily as possible, with due regard to public convenience, the platforms of all cars will be equipped with gates or doors.

THE GENERAL PUBLIC IS RESPECTFULLY REQUESTED TO CO-OPERATE WITH THE COMPANY IN THE ENFORCEMENT OF THE NEW REGULATIONS. THEY ARE INTENDED TO BETTER PROVIDE FOR THE CONVENIENCE AND SAFETY OF PASSENGERS, AND THESE ENDS WILL BE ATTAINED MORE QUICKLY IF SUCH CO-OPERATION IS GIVEN.

## TERRIFYING SCENES DURING BIG STORM

### WOMEN IN HYSTERICS ON FERRY VESSELS TUESDAY

Adelaide, Victoria and Charlotte Fare Badly—Men Injured—Silverware Flying

Women in hysterics, silverware and glasses sliding about the floor of the diningroom, chairs and tables, which were unbolted in the saloon and observation room tossing about as though in the sea themselves, planes cutting capers unseen before, men passengers unable to make their way about deck and those who tried their sea legs being thrown against the cabin work with several resultant severe injuries, were some of the incidents which marred the trips of three of the big ferry boats during last Tuesday's great storm. The steamer Princess Adelaide, Capt. Hunter, bound from Vancouver to Victoria; the Princess Charlotte, Capt. Griffin, bound from Seattle to Victoria; and the Princess Victoria, Capt. Hickey, bound from this port to Vancouver, had the worst trips they have ever had on this coast.

The officers and passengers of the C. P. R. steamers related exciting and thrilling stories upon the arrival at their destinations. The terrific weather brought out the best seagoing qualities that the steamers possessed, and it was only by slowing down the fast ferries that they were able successfully to cross the Gulf, Straits and Sound. When the Princess Charlotte passed Port Townsend she received the full brunt of the storm, and was four hours coming from Townsend here, a distance which she generally covers in half the time.

Adelaide Had Worst.

The Princess Adelaide received the worst dusting of the three boats. At 10 o'clock on Tuesday morning she left Vancouver, and everything went smoothly until the course was altered off Point Grey. The Adelaide had been lifting in the big seas from the time she passed out of the Narrows, but when the new course was being laid a gigantic sea caught the Adelaide. It jerked her violently, and the passengers thought that she had been pulled to pieces. Prior to this most of the travellers had been feeling sick, and it only took this nasty jerk to place them all under the weather.

With the suddenness of the pitch the piano in the after saloon got adrift, the burning parties it tossed across the saloon and an old lady who happened to be in its path was struck and badly hurt. She was taken into one of the staterooms and attended to. The piano continued on its wild career, but failed to do any great damage. It finally struck the side of the ship, and there remained.

While all these things were going on in the saloon other things were happening in other parts of the Adelaide. In the smoking-room were several men, who were not bothered by the seething of the steamer. When the violent roll came Mr. Gordon, a manufacturer's agent, was hurled against one of the window sills and fell to the floor. On examination it was found that he was suffering from a fractured leg. Another man, whose name is not known was thrown against a partition, and had his nose badly hurt. Other passengers were thrown on the decks, but escaped without injury.

In the diningroom much of the silverware shot from the table and was scattered on the floor. Glasses and crockery were also spilled from the racks. In the observation room the big chairs had been thrown about and upset and some of the lighter chairs in the saloon also, fared a similar fate. Several windows aft were smashed.

What is more than this, many of the women passengers were in hysterics. They were shrieking in their cabins. It was soon over, however, and the Adelaide resumed her long, pitching motion. It was a sorry crowd of passengers which left the Adelaide on her arrival here Tuesday evening.

The thanks of the passengers are extended to Dr. Bryant, of Victoria, who was on board and who did his best to relieve the sufferings of those who were unfortunate enough to be injured.

What the Victoria Had.

The reliable old flyer, the Princess Victoria, was two hours late reaching Vancouver from this port. Captain Hickey, her master, said it was the slowest trip he had made for a long time, and that the seas were his enemy to match the vessel. If he had not slowed down to twelve knots, a thing he never had to do before, the boat usually being able to weather anything she had met at about fifteen knots.

One wave smashed in a window of the second class smoking room, forward on the main deck; it smashed one window and carried the shutter completely away. Fifteen men who were in the smoking room at the time were picked up, together with their belongings, and landed in a heap in one corner of the cabin, by the force of the wave.

The water came rolling in and flooded the ship from stem to stern. It wet the carpets in the first-class cabin, and in the ladies' after cabin the piano was

### OIL-TANKER TRINCOLU HAS BAD RUN UP COAST

Captain Nearly Struck by Grating; Lifeboat Smashed and Cabins Flooded

Vancouver, Jan. 2.—With the port lifeboat smashed and after the worst trip for many years, the Union Oil Company's steamer Trincolu, Captain Hughes, arrived in the harbor early yesterday morning and docked at the C. P. R. wharf, where she soon after commenced to pump out the 52,000 barrels of oil she had on board from Port Hartford into the big tanks on shore.

The chief officer, Mr. Pruhs, said this morning that they had a favorable wind till they reached Cape Blanco on Tuesday, where the wind changed round to the northwest. From here the wind was either dead against them or else abeam. The waves washed right over the bridge and Capt. Hughes narrowly escaped being hurt when a wooden grating was swept overboard within a few feet of where he stood. The port lifeboat was washed against the bridge railing and was badly splintered underneath. At times the waves splashed over the funnel, leaving it almost white with salt, after the water had dried off. All the officers' rooms were badly flooded, the water gaining access by way of the ventilators, several of them on the lower deck being broken off at the base.

The heavy steel doors leading to the companionways had to be closed, but even these could hardly resist the force of the waves, the heavy pressure snapping the iron chests holding them in place and almost tore them open to leave the passage free for the sea to enter. The decks were hardly ever clear of water until the steamer was in the quieter waters of the strait after passing Cape Flattery. Some of the iron railings show where the force of the waves rushing past them has bent them from their usual positions.

Chief Officer Pruhs says that it was the worst weather he had ever seen on that part of the coast, and that if the Trincolu had been an ordinary freighter with wooden hatches, the holds would have been flooded and the cargo damaged. As small iron hatches are used on the oil boat no damage of this kind resulted from the terrific hammering she received at the hands of the waves.

Cassidy Strips Propeller in North by Striking Log

Vancouver, Jan. 2.—Passengers on the Princess Beatrice, which arrived from Prince Rupert Tuesday night, brought down news that the Union Steamship Company's steamer Cassidy had been in Simon Sound with her propeller blades stripped by one of the numerous logs afloat. The officers and crew are still aboard and also many of the passengers. Luckily the Cassidy is in a position sheltered by headlands, and is in no immediate danger.

It is expected that the Clayburn which has been dispatched to her assistance will bring the Cassidy back to-morrow.

## WENT ABOARD TO SAY GOOD-BYE; STAYED ON

Seattle Chinese Broker Had to Come to Victoria on Inaba as a Result

Next time Fong Pow, one of Seattle's Chinese brokers, goes aboard a vessel to say good-bye to departing friends he will more than likely remain where he can watch the movements of the officers and crew. As a result of going aboard the Nippon Yusen Kaisha liner Inaba Maru last Tuesday morning, while she was lying at Seattle, to have the final parting words, Fong Pow had to make the trip across the Sound to Victoria. Fong not only caused his friends in Seattle a great deal of worry over his mysterious disappearance, but he also gave the immigration officials here a little trouble.

Fong knew that the Inaba was posted to sail from Seattle at 10 o'clock on Tuesday morning. He thought he had plenty of time to go aboard and pay his last respects. Down below he went with his friends. The heavy whistle of the Inaba was not heard, nor the castles off at the line nor the pulsating of the engines. When Fong did think it was time for him to be getting ashore, he made his last bow, and went on deck. He made a startling discovery. The Inaba Maru was under way; she was well out on the Sound on her way to Victoria, the last port of call before she made for the Orient. It was impossible to have the ship put back to Seattle, and he sat down in a melancholy manner to await the arrival of the steamship here.

Fong must have thought that he had been "shanghaied," and then again he might have thought that he would be mistaken for a stowaway. When he had the opportunity he made known his predicament to the officers. In the meantime the friends of Fong at Seattle were worrying about him. Some of them were waiting on the dock for him to come off, but he never came. He might have fallen overboard.

Fong's friends at once sent telegrams to Victoria to ascertain if Fong was aboard the Inaba. The immigration officials boarded the liner when she berthed here and they found the Chinese broker. Then there was a long explanation and it was agreed that Fong should be permitted to land here. The Inaba was to remain here for two hours, but Fong decided to run no more chance, and left the vessel soon after she was docked. He did not wish to be caught again, and this time to make the long voyage to the Orient.

Fong returned to Seattle yesterday afternoon on the Princess Charlotte.

## BRITISH STEAMER ALCARZAR ASHORE ON CAPE LOOKOUT

Wilmington, N. C., Jan. 2.—The British steamer Alcarzar, bound from Port-au-Prince, Haiti, for Philadelphia, went ashore early to-day on Cape Lookout. Her calls for assistance were picked up here by the revenue cutter Seminole, which left immediately for the scene.

The Alcarzar is a vessel of 2,000 tons. She sailed from Port-au-Prince on December 17.

Camino Had Narrow Escape Off Coast—Storm Reports From Astoria and Frisco

Portland, Ore., Jan. 2.—Seas running mountain-high threatened to drown the fires of the steamer Camino last Saturday as she battled with a 90-mile gale, pitching and wallowing in a southeasterly swell that tried to engulf her. The Camino arrived yesterday from San Francisco, after being delayed twelve hours by the gale outside.

Captain Ahlin said yesterday that immense waves, the largest he has seen for some time, rolled up on the Camino, and during the gale kept her decks awash all the time. When she reached the mouth of the Columbia the gale was so strong that she could not come in and remained outside until it subsided somewhat.

The captain said that he saw the steamer Tampabay outside once, but she must have gone offshore as he did not see her again.

Fleet Barbound.

Astoria, Ore., Jan. 2.—The gale, which has prevailed here since Saturday, has subsided, but the bar at the mouth of the Columbia has been so rough that the barbound fleet has been unable to move. The only vessels to arrive yesterday were the steam schooner Shna Yak and the Francis H. Leggett. The oil tanker J. A. Chandler has been out three or four days and she reports by wireless that she will not attempt to cross in until the bar is smooth.

The Portland and San Francisco liner Beaver attempted to cross out yesterday morning, but returned to port and went below again yesterday afternoon. It is hardly likely the vessel will get away to-day.

Owing to the storm which prevailed the last three or four days the telegraph and telephone, as well as the wireless station, have been badly crippled so that shipping information has been difficult to get to the outside world.

Vessels in port waiting a chance to go to sea are the steamers Alliance, Yellowstone, Navajo, Anna Campbell, Houghton, Fenwick, Maverick, Temple E. Dorr and Beaver.

The Harvard ploughed and rolled but had no mishap.

The steam schooner Arctic put out to the lightship and anchored after taking a look at the combers, and the pilot taken aboard the schooner George E. Hittings, from Australia took that craft back to the lightship and anchored.

Heavy weather kept the steam schooner Tahoe out five days and sixteen hours, coming south from Gray's Harbor, and she arrived here yesterday burning part of her lumber cargo. Four hundred railroad ties were used beneath her boilers to keep up steam the last 100 miles.

## PALZER WAS A PUNCHING BAG FOR CLEVER AND YOUTHFUL MC CARTY

Conqueror of Jim Flynn Beat Bulkier Opponent to a Pulp in  
Eighteen Rounds of Gory Battle — Winner Too  
Clever for Iowa "White Hope"

Los Angeles, Cal., Jan. 2.—Luther McCarty, of Springfield, Mo., shattered the heavy weight championship ambitions of Al Palzer, the Iowa giant, at the Vernon Arena yesterday. For nearly eighteen rounds he used the huge frame of the Scandinavian as a punching bag. The middle of the eighteenth round found Palzer staggering blindly under a volley of terrific lefts to his battered face, and when Referee Eytton walked between the men and hoisted the right hand of the smiling cowboy pugilist, the decision was received with cheers.

McCarty at Top.  
McCarty's victory, following his decisive defeat of Jim Flynn three weeks ago, places him at the top of the list of white heavyweights, and sporting authorities who have declared Jack Johnson eliminated from further consideration as a champion because of his recent escapades, have proclaimed McCarty the heavy weight champion. Until Johnson is definitely disposed of, however, McCarty probably will be accepted merely as the white heavy weight champion. He has announced, and reiterated the statement today, that he would never fight a negro.

Palzer Was Outclassed.  
Palzer, in spite of his superior height, weight and reach, was no match for the cool-headed, agile youngster. The slow-witted farmer literally went through the fight assimilating terrific punishment, and his bull-like rushes were productive of nothing but more blows for himself. He scarcely landed a clean blow throughout the fight. His hardest punch only provoked the smiles of his lighter but quicker-witted antagonist.

Palzer Aggressive.  
Palzer began the fight with an aggressive

stiveness that showed determination to finish his man in short order, but McCarty had little difficulty in eluding his rushes and causing him to swing wildly. Only once Palzer appeared to have an advantage. In one of the early rounds McCarty slipped to the mat. Palzer rushed him, launching a right uppercut to catch the rising cowboy, but the latter, with great agility, ducked backward and Palzer's attempted knock-out blow cleaned the atmosphere three feet away from the intended mark.

Winner Very Clever.  
McCarty fought cleverly throughout, taking his time and beating down his man systematically. He seldom missed a blow and hit with deadly precision. Palzer had practically no defense against Luther's whip-like left, delivered straight from the shoulder, and seldom was he able to block the vicious right swing or uppercut which invariably followed a series of straight lefts, with Palzer's face or stomach as a target. McCarty landed at will and with an accuracy that became monologous.

McCarty Out-weighted.  
In sparring or in clinches, Palzer's eyes were kept almost continually on his manager, the veteran Tom O'Rourke, who crouched at the edge of the Iowa's corner, shouting instructions to him through a megaphone. He appeared to have no initiative whatever and tried only to follow instructions. The latter were as audible to McCarty as to Palzer, and every move of the farmer was anticipated by the Missourian. McCarty frequently smiled and wrinkled his nose at the Iowa's precursor, and occasionally "joked" the worried veteran.

Palzer's weight was announced as 227 and McCarty's, 205.

## GOAL UMPIRES AT ALL SOCCER GAMES

Continental Style Suggested to  
Avoid All Disputes — Practice Matches Booked

Goal umpires for soccer is the suggestion that has been made. This arises from a disputed goal in the Old Country vs. Native Sons soccer match at Beacon Hill yesterday afternoon. Sam Greenhalgh, captain of the Sons of England eleven, states that this system of having umpires at each goal net has been adopted on the Continent, though it is not in vogue in England nor in Eastern Canada. The Old Country players claim that a low drive from Kerley, the outside right, went through Robertson's hands and into the net. Robertson, however, cleared to the satisfaction of the referee. As this disputed goal came in the second half, it will be seen that this might have made a difference in the outcome.

Lack of sufficient knickers to fit out eleven men, made it necessary for the Old Country team to start with nine men, the two other forwards coming on after about fifteen minutes' play, during which time the Native Sons scored a goal.

Arrangements have been completed for a practice match on Saturday afternoon at Oak Bay between the Wests and the Bays. All players of these clubs are requested to be on hand.

Sons of England and the Garrison eleven will play at the Work Point Barracks on Saturday afternoon. The Sons' team will be chosen from the following: Kerley, Brown, Hymers, Vincent, Jones, Maxwell, Kelsall, Douglas, Langton, Greenhalgh, Marshall, Kerley, Heathfield, Ramsbottom, Beech, Lynham.

Sacramento traded Ed McDonald to Chicago for Tom Downey because McDonald would not report to the coast. Now Downey says he positively won't go. Sacramento should try again.

TO MEET IN CHICAGO.

Los Angeles, Jan. 2.—Frank Chance, formerly manager of the Chicago National League baseball club, announced that he would leave his home at Klen-dora, California, for Chicago. Chance expected to meet Frank Farrell for a consideration of an offer to the former Chicagoan.

BAYLEY TO FIGHT.

Joe Bayley, the light weight champion boxer of Canada, will next be seen in action at Nanaimo on Monday, January 13, when he will meet Tom Moore. The boys will weigh in at 5 o'clock. Moore at 125 pounds and Bayley at 123. This will mean that the champion will be giving away at least five or six pounds.

Roger Peckinpaugh, shortstop, in the role of floor-walker, Paddy Livingston, catcher, as an inspector, and "Red" Nelson, pitcher of the Phillies, as elevator starter.

Jess Tannehill, who has signed with St. Joseph in the Western League, will act as a coach for young pitchers.

Second Baseman Joe McCarthy, of Wilkesbarre is now talked of as the man Billy Clymer will select for the team's manager.

## EVERYTHING WENT AT VANCOUVER

Victoria Boxers Were Up Against a Joke Referee at V. A. C.  
Bouts—Barrieau Wrestled Decision From Al. Good  
win—Donald McKay's Clean-Cut Win

"Had we been given an even break in the referee's decision I am sure that we would have returned with at least two and possibly three of Inter-Club boxing bouts with the V. A. C. at Vancouver last night," was the statement that Billie Davies, the James Bay boxing director, made to the Times this morning with reference to the bouts at the Terminal City. "Donald McKay fairly had to kill his man to get a decision, and Frank Barrieau succeeded in wrestling Goodwin for a couple of falls which gave him the verdict in Referee Sykes's eyes. Fox and Dooley put up the cleanest fight of the night, but the Wheeler-Atcheson bout was another fiasco, the Vancouver man be-

ing allowed everything. My chief objection, however, is to the decision of Referee Sykes in the Barrieau-Goodwin fight."

To Meet Again.  
According to the J. B. A. A. boxing magnate the refereeing was the worst ever seen on the Coast, Barrieau being allowed to use his elbow and continually heel Goodwin. The pair will meet in Victoria on January 20, when with an impartial referee, Goodwin looks for a win. The Victoria middleweight showed wonderful cleverness in evading Barrieau's mad rushes and but for the rough and tumble boxing would have shamed the Vancouver idol.

## TWO COUNTRIES CLASH IN SNOWSTORM AND HONORS GO TO NATIVE SONS

Miserable Conditions Mar Holiday Game at Beacon Hill —  
Match Ends in Victory Over Old Country by  
Five Goals to Three

The Native Sons beat the Old Country yesterday afternoon by five goals to three in a game played under the worst conditions possible for soccer. A snowstorm fell throughout the match and the crowd shared the discomfort, as there is no accommodation at Beacon Hill Park for the spectators.

In the first half the Native Sons scored three goals, and shortly afterwards Douglas replied for the Old Country from a shot off the wing. There was a long delay before anything of interest occurred, the snow making a footing hard to keep. Shooting was ragged, and there were no combined movements to arouse enthusiasm. The Native Sons got their second goal before the close of the half from a rush in which the right wing carried the ball to the goal mouth, and someone put the ball through the net, whether friend or foe it was not possible to discover. Sherrett conceded a corner in clearing, but the kick sent the ball behind.

### Second Half.

In the second half Peden opened the scoring for the Native Sons from a fine centre. Robertson and Gillespie were tested in turn; both effected excellent saves. A combined movement in which the whole of the Native Sons' forwards worked in unison led to

Brown obtaining another goal, and then play slackened off appreciably. Dakers had a run up which Sherrett got clear with, and at the other end Bob White was called on to clear at close range. The Native Sons had a good half back line, who put in excellent clearances. Pilkington and McDonald essayed an attack for the Old Country eleven, but the effect terminated without any result. However, the ball returning to the same end, McDonald scored, putting the teams four to two. The fifth goal for the Native Sons came from a goal skirmish, in which a drop by Sherrett brought the leather back to the net, and it rolled between the uprights.

Before the end, came the Old Country boys failed to score from a corner and a free kick in a convenient position, and then McDonald brought the team up another peg by beating Robertson at close range. The game soon after came to an end without further score.

### The Stars.

The match was played in such wretched conditions that a good test was out of the question, however credit is due to both goalkeepers, who were frequently tested, to Petticrew and Niven among the respective halves, and Douglas, Dakers, McDonald and Peden among the forwards. Dave Dougan referred.

## REMARKED ON THE SIDE

### McCarthy Now Looks a Real Champion.

Two bruising victories now rest to the credit of Luther McCarthy, the Irish-Indian heavyweight battler, and while Jess Willard, the Oklahoma giant, has yet to be dealt with, McCarthy must be considered a champion of the white race, at least, until Willard takes this title away from him. McCarthy's impressive victory over Flynn, in which he gave the Fighting Fireman the worst beat that he ever received in his life and at the same time escaped unscathed, caused the dopest to sit up and take notice. Yesterday he defeated his win, this time punishing Al. Falzer severely and leaving the ring without a mark on him. This fellow has more than brute strength and his cleverness has astounded the Vernon authorities, all of whom are loud in their praise of the latest "hope." Tom McCarey's provision that the holder of his belt must never fight a colored man will save McCarthy some trouble, for Langford would certainly give Falzer's conqueror a troublesome evening should they meet in the ring.

### N. H. A. Teams Are Serving Up the Rough Stuff.

Quebec's victory over the Wanderers at Montreal on Tuesday night when the Ancient City team defeated Sammy Lichtenheim's club three to one in overtime throws a different complexion on the race in the Eastern pro circuit. It gives the present champions and holders of the Stanley Cup two wins and no losses, while their two games are at home against the weak Toronto club. Canadians and Wanderers will have to travel to catch up to the flying leaders. The teams are playing rough hockey in the Quinn league, judging from the fines imposed. At Montreal several major penalties were enforced. Whether the teams are playing for the crowds with this rough brand of hockey remains to be seen. The gallery element like the slaughter-house brand, but Sammy Lichtenheim will soon find a drop in his reserved seat sale if he continues to feature the murderous variety.

### Victoria's Chance to Lead the League.

There is a strong probability that Victoria will be at the head of the Coast circuit after to-morrow night's match in Vancouver. New Westminster have not played for nearly two weeks and the 1912 Champions ought to be in the very best of shape. Ernie Johnson will have another chance to show up Fred Taylor if he is capable of this feat, while Jimmie Gardner's prophecy that he will again pilot his team to the title remains to be proven. The Royals certainly have a grand aggregation of hockey players and when they strike their stride they will be a hard team to head off. They beat Vancouver only a couple of times during the whole season of 1912 and won the championship by defeating the Senators. To-morrow night they will either drop their third straight game or send Victoria to the top of the league by defeating the Vancouver seven. The dope favors Vancouver, home ice being taken into consideration, but seeing that the Royals have never played at New Westminster, this should not be such an advantage.

### Poulton's Speed Should Help at Rover.

Lester Patrick was tickled with the way Skinner Poulton worked at rover at the pro's practice and there is every probability of the speedy "sparrow" being kept in centre. Tommy Dundasdale has played centre so often that the change does not bother him and from the manner in which Poulton is taking to the rover position, he will make a star in mid-ice. Bobby Rowe is given more opportunity to break through on the wing and with Small fills out the best balanced attack in the league. Victoria has not been able to work any combination this year because of the fact that the men were not playing their positions properly. With the above change, however, Manager Patrick looks for a big improvement in team play. Bert Lindsay's damaged eye has healed nicely and though he will be out of the game for a few days, will be in fine shape for next Friday's game when the Royals meet the Senators at the Arena. Rink patrons are again reminded that the reserved seat sale will not open until Monday, though the season ticket plan is now open.

## OAK BAY SCORED 6 TO WELSHMEN'S 0

New Year's Day Rugby Match  
Was Played in Slough During  
Blinding Rain

To say that the New Year's Day Rugby match between Oak Bay and the Welshmen was the dirtiest game seen in Victoria in years is to cast no reflection on the fairness of the tactics employed by the players, but is rather a compliment to the zeal and courage of the thirty young men who slid around in a slough for an hour and a half endeavoring to follow a not very old platoon.

Oak Bay carried off the victory by scoring a single try and its consequent goal. Neither side was able to play in anything like its best form on account of the wretched weather conditions which obtained. Before the rain commenced to fall the field was covered with puddles and a heavy downpour, which occasionally thickened into a slushy snow, lasted throughout the entire contest. Every man in the field was not only drenched but plastered from head to foot with the mud which he frequently came into contact with underneath the water that covered the field.

The victory was earned by Oak Bay under the prevailing conditions. They scored a try only once, although on numerous occasions the Welsh players narrowly averted scores by recovering

behind the line. The greater part of the play all afternoon was in Welsh territory and the Oak Bay forwards gave their halves the ball in almost every scrimmage during the match. They were much heavier on the line than the Welsh, but repeated muffs by the Oak Bay three-quarter backs and brilliant relieving by Davis, the Welsh full-back, saved the white goal time and again.

Running with the ball was almost impossible on the treacherous footing, but Nason, of Oak Bay, made several daring advances through his opponents' Great ability as if he had been on a dry field. The Oak Bay players tackled better than the Welsh in the slippery going, but the Welsh punting was generally superior.

Oak Bay's single try was scored when Tuohy recovered a bounding ball behind the line and Gillespie made the convert from a difficult angle. The teams lined up as follows:

Oak Bay: K. McDonald, Full; Davis, F. Nason, Three-quarters; Hill, Johnson, Forwards; Forester, Cooper, Halfbacks; Hendra, Tuohy, Halfbacks; Jones, Horeson, Halfbacks; Thomas, A. McGinnis, Halfbacks; Bailey, Heinley, Forwards; H. Watkins, Sedger, Halfbacks; S. Edwards, Brynjolfsson, Halfbacks; G. Grant, Scott, Halfbacks; F. Lomas, D. McDonald, Halfbacks; A. Davis, F. Swenson, Halfbacks; A. Griffiths, J. McCallum, Halfbacks; W. Richards, Halfbacks.

### ROOTERS' CLUB PROPOSED TO HELP

### VICTORIA WIN THE COAST TITLE

Hockey Fans Organizing Cheer Brigade—Bert Lindsay's Eye Responds to Treatment—Locals Have Grand Chance to Take Lead in the P. C. H. A.

A rooters' club to help Victoria's septette win the Coast league title is being formed by Bud Bli Dalglis, the clever defence player of the B. C. Telephone team of the City league. The leader has made arrangements with Manager Patrick of the Arena, to reserve a section for Victoria's rooters, and he would like to hear from all interested. Vancouver has quite a following in the Capital, all of whom go to the matches armed with megaphones. The Victoria rooters will be so equipped if Leader Dalglis can get a crowd of hockey fans together before the game on January 9, when New Westminster plays here.

Lindsay's Eye Improved.  
Bert Lindsay, who suffered a bad crack over the left eye on Monday, when Jack Ulrich smote him over the optic in a scrimmage near the goal is wearing a cast over the damaged lamp but will be out next week as usual. Lindsay is having hard luck this year and has twice had to take the count. The Victoria team displayed a lot of "pep" in their workout Tuesday, and the players rested up yesterday. Manager Patrick wishing his team to spend the holiday as pleasantly as possible. The reorganized forward line showed lots of speed and the rail-blades were pleased with the improvement in team play. Rowe and Small can play the boards to perfection while Poulin and Dundore have all kinds of "smoke" in mid-ice.

### VANCOUVER ELEVEN SADLY OUTCLASSED

Victoria Pro. Soccer Club Scores Easy Shut-out Over Terminal City Club

Victoria's professional soccer eleven had very little difficulty in defeating Vancouver's Pro. footballers at the Royal Athletic park yesterday morning, the game ending with the score five to nil in favor of the local team. Play was too one-sided to make the match interesting, the Vancouver halves being sorely pressed, while their forwards were utterly unable to penetrate the magnificent defence presented by the Victoria club. It was a case of class against a poor collection of footballers, and the Senators might have won by a larger margin had they wished. The heavy field prevented fast scoring and this helped, rather than handicapped, the visitors.

At no time was the result in doubt, Victoria scoring from the start and keeping Vancouver on the defensive throughout. The wonderful kicking of Crawford and Newlands relieved goal-tend Dougan, and the latter had scarcely half a dozen shots to handle, all from a distance. Victoria forwards clustered around the Vancouver net like so many bees, the heavy, slimy ball spoiling many a good shot on the Terminal City nets. Vancouver failed to show the combination that enabled Victoria to keep the play in their opponent's territory, and their forwards were kept

## MAYORALTY CAMPAIGN COMMENCES TO-NIGHT

Mayor Beckwith Will Be at the Sir James Douglas School

The municipal campaign commences to-night. Mayor Beckwith has invited the aldermen to join him at the Sir James Douglas school, Moss street, at 8 o'clock, and discuss civic matters. To-morrow he will be at the Victoria West schools.

Mayorality Candidate Morley, in connection with his challenge to Mayor Beckwith for a public joint meeting in the Victoria theatre on January 4, made the following statement this morning: "As Mr. Beckwith has published a schedule of his meetings with our reference to my suggestion, it is evident that he is not anxious that the people should hear more than his side of the question. In any event I will carry out a meeting on January 9 at the Victoria theatre, giving the aldermanic candidate an opportunity to use the time which otherwise would have been allotted to Mr. Beckwith. I shall make it my business to meet the people at the various points in the city covered by Mr. Beckwith. The dates of my meetings will be definitely announced later.

"In view of the decision of the school board to allow the buildings under its control to be used for the purposes of the campaign in this connection a serious question arises as to Mayor Beckwith's right to use the city school buildings for private meetings. Any building owned by the city is naturally a public building in the same sense as the city hall is public, and no one would think of other than a strictly public meeting being held there. Therefore, I contend that any meetings held in any building owned by the city must necessarily be public meetings in the full sense of the word, that is conducted for and by the public."

The ex-mayor adds that if the mayor holds meetings in the schools he will follow with meetings in the same buildings.

## NO DECISION ON TYPE OF BRIDGE

City Engineer Will Visit Portland Shortly to Examine Into Movable Spans

It does not appear that any definite action has been reached with regard to the Johnson street bridge beyond the fact that there is to be a bridge of a movable type.

Who is to pay for the bridge, and when a start is to be made on construction have not been determined, nor has it been decided what class of adjustable span will be approved. It is thought the cost will have to be divided between the government, city, Canadian Pacific Railway and the British Columbia Electric Railway. Whether the Canadian Northern Railway will contribute is not known. The Canadian Pacific, it is understood, will contribute to the extent of the cost it would have been involved in for reconstructing the present bridge.

City Engineer first proposes to take a run down to Portland shortly to see the movable bridges there.

## THE GULF ISLANDS MAIL CONTRACT CASE

C. P. R. Desirous of Omitting Nanaimo From Port of Call—Asked to Prepare Case

A very serious matter in connection with the mail service on the Gulf Islands route is occupying the attention both of the Canadian Pacific Railway and the people of Nanaimo. The early expiration of the Nanaimo mail contract now held by the Canadian Pacific Railway is responsible. The Canadian Pacific Railway is desirous of omitting the Nanaimo call in the new contract, and substituting for it an additional call at Vancouver.

The Nanaimo people have been called upon to present a case showing why they think the service should be continued. Failure to do this will probably result in the wishes of the transportation being accorded to the post office department naturally being the last arbiter in the matter.

## ALDERMAN BEARD LEAVES THE FIELD

IS NOT CANDIDATE AT COMING ELECTION

W. K. Houston Enters the Field—Alderman Humber Reconsiders His Decision

Alderman Beard definitely announced to the Times to-day that he would not offer himself for re-election at the coming municipal election. He proposes to leave for Europe in May with Mrs. Beard, and will be away from Victoria for at least five months. He feels that he could not give that time to the work of the city council which he ought to give. He has been an energetic chairman of the health and morals committee. The department would have achieved more in the past

two months if the setting up of the garbage collection service, with a series of receiving stations advocated by him had not met with so much opposition.

Alderman Humber said to-day he had reconsidered his intention to resign, and would probably be in the field at the election. Alderman Cuthbert indicated that he has not yet decided whether he will run again, while the same remark applies to Alderman Stewart and Baker. The other aldermen, with the exception of Ald. Stewart,

art and Anderson, are expected to be in the field.

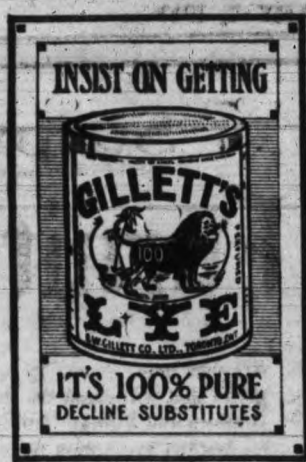

W. K. Houston, the well-known pickle and sauce manufacturer, announced his candidature. If Mr. Houston is elected he will bring to the board the confidence of the business men in a marked degree, and holding as he does the most progressive views on city government, the citizens have an opportunity of voting for an excellent representative. Mr. Houston believes that the problem of water should be dealt with immediately and that no

time should be lost in completing the Sooke contract. He thinks the municipal state of the city will require the greatest attention from the council next year.

H. W. Davies, of Davies & Sons, auctioneers, Yates street, who has been a citizen much interested in civic matters, will also be a candidate for alderman at the coming election.

## LOCAL NEWS

Inspector Appointed.—John B. de Long, B. A., has been appointed provincial public school inspector to fill a vacancy created recently.

Bereavement of Victorian.—Mr. Carruthers, of this city received news this week of the death of his brother, William Christopher Carruthers, of Carp, Ont., one of the well-known farmers of Carleton county, who passed away recently at the age of 76.

Two New Directors Named.—In order to have in Victoria a quorum of the board of directors of the Canadian Collieries, Limited, of Dunsmuir, two new directors have been appointed, F. Perry and W. L. Coulson, the general manager. There are now twelve directors.

Will Meet G. H. Barnard, M. P.—A meeting of the council of the board of trade is to be held to-morrow morning at 10:30 in order that the members may meet G. H. Barnard, M. P., to place before him certain recommendations for prosecution before the authorities when he reaches Ottawa.

Has Completely Recovered.—Ernest McGaffey, secretary of the Vancouver Island Development League, has completely recovered from the severe illness which has kept him confined to his bed for some weeks. The secretary resumed his duties at the league office this morning.

First Permit of Year.—The first building permit for 1913 was issued this morning to A. C. Westgate for a six-room dwelling house on Bushby street. The total permits for last year amounted to \$5,123,670, one hundred per cent increase on the previous twelve months.

Rowland's Concert Band.—Rowland's Concert Band will give their usual concert at the Victoria theatre on Sunday evening at 8:45. The special features will be recitals by Mr. Rowland's band, the English orchestra, Wm. Robinson, the boy violinist, will give a solo.

An Enjoyable Event.—The "at home" given by the Young Ladies' Club of the Metropolitan church, New Year's evening, was a decided success from a social point of view and a most enjoyable evening was spent by the young people of the church. The Y. M. C. A. was well represented, and games and music were indulged in.

Boosting Articles.—Two articles from the pen of the secretary of the Vancouver Island Development League have just come to hand, one being in the Sportsman's Review and the other in the Financial Times. The title of the first is "Blue Grouse on Vancouver Island" and the latter "Vancouver Island." Another article from the same pen, and entitled "Fishing in Vancouver Island," is another boost for Victoria and district.

The Weather.—Rain fell heavily for a good part of yesterday, the second half of the day being wetter than the first. One-fifth of an inch fell in the morning and three-fifths of an inch in the afternoon, making a total for the day of four-fifths of an inch. The wind, however, was not nearly so boisterous as on the previous day, and in fact never once passed a velocity of twenty miles per hour.

Fifth Regiment Officers Receive.—The officers of the Fifth Regiment were "at home" at their quarters yesterday afternoon, and many visitors called on Lieut. Colonel Currie and his fellow officers during the afternoon. This is the first time a function of this character has been attempted, and hence its success is certain to make the ceremony a feature in the social life of Victoria on New Year's Day. Light refreshments were served.

## THE FIRST ELECTION.

Alberti Prepares to Take Vote of Ratepayers to Determine First Municipal Council.

Interest in Alberti to-day is largely centred in the first municipal election, which will be held on January 15. It is considered probable that C. P. Bishop may be elected as mayor, although another candidate is in the field. There are ten candidates for the six aldermanic seats. Edward White, who is in the city to-day to represent the district at a meeting of the British Columbia Agricultural Society concerning district exhibits, says that the town is growing and that there are about 750 within the corporate limits now.

The Canadian Northern Pacific railway construction to Cowichan Lake is making good progress and the contractors have large gangs at work near Smith's Landing on the Alberni Canal.

## THE VIEWPOINT

It is unfortunate—for us—that a telephone subscriber sometimes sees nothing when getting service, but himself and one telephone instrument. He doesn't see the other hundreds or thousands of subscribers and he gets no idea of the work we are really doing and the violent and uncertain changes in the number of calls given us at various hours of the day.

We have rushes of business just as the street cars, the stores and the post offices do. Yet a man who will patiently wait in line two or three minutes to be allowed to deposit his money in someone's bank will become "disgusted with such service" if he has to wait in line fifteen seconds to get an operator to connect him with his residence that he may inform them he "will be a little late to dinner."

The operator may occasionally be too busy, waiting on but other customers, to give you instant attention. Meanwhile, we will undertake to make your average service prompt and the longer delays reasonably few and far between. When you are not satisfied with it don't discuss the matter with the operator, but call the complaint department, where your grievance will receive immediate attention.

**BOWELS SLUGGISH, STOMACH SOUR,  
GASSY, UPSET? CASCARETS GREAT!**

That awful sourness, belching of acid and foul gases; that pain in the pit of the stomach, the heartburn, nervousness, nausea, bloating after eating, feeling of fullness, dizziness and sick headache, means your stomach is full of sour bile—your liver is torpid—your bowels constipated. It isn't your stomach's fault—it isn't indigestion—it's biliousness and constipation.

Try Cascarets: they immediately sweeten the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter from the bowels. Then your stomach trouble is ended. A Cascaret to-night straightens you out by morning.

10 Cents. Never grips or sickens.

## DESCRIBES TREK ACROSS CONTINENT

R. B. McMICKING TELLS  
OF GOLD RUSH OF 1862

"Overland to Cariboo" Party  
Travelled From Winnipeg to  
Edmonton Without Guide

A remarkable journey in 1862 from Fort Garry to British Columbia, made by a party of the various individuals in which had previously travelled in smaller parties from points in Ontario and Quebec and from Ogdensburg, N. Y., is recalled by the following description: Written by R. B. McMicking, of this city:

In these days of half century, reminiscence, marking the arrival in British Columbia of many of its pioneer gold-seekers, whose history is so interwoven with the early history of the Cariboo goldfields rush and subsequent settlement of this province it is fitting that some record should be made respecting the "Overland to Cariboo" party of 1862 under the leadership of Captain Thomas McMicking. This party traversed the great plains of the almost boundless northwest, while the fertile stretches of "maiden mould" were yet in conditions almost primeval, crossed the Rocky Mountains, and wended its way toward the coast via the Fraser, and Thompson river valleys.

The main party, which came down the Fraser, disbanded at Quesnel on September 11 of that year, many thereafter, although it was late in the season, going into the Cariboo gold mines.

**CAPTAIN THOMAS McMICKING**  
who was elected leader of the party. The picture shows him at the time of his graduation at Knox College, Toronto.

sixty miles distant, some to do well, more soon to follow their late companions towards the coast.

Captain Thomas McMicking, who was the head and front of the expedition, and apart from whom its story could not well be told, was not only captain of the Queenston party of 24, with which he was primarily associated, but was subsequently elected captain of the combined party, made up of some twenty or more additional smaller parties from various points in Ontario and Quebec, and one from Ogdensburg, New York, which converged at Fort Garry (Now Winnipeg), preparatory to footing it over the plains, and Rocky Mountains, as yet for the most part, the home only of the red man and the buffalo, into British Columbia.

These several small parties, none of which "knew" previously that others were undertaking the journey, agreed at Fort Garry to form into one company for mutual help and protection. Accordingly the various original parties agreed to move out one day's drive to Long lake and camp for organization. On arrival there, and after full deliberation it was agreed that a captain should be elected by a vote of the combined company and that thereafter an advisory council, be formed, composed of one representative from each original company to be elected by the votes of the various original companies.

Elected Captain.

Thomas McMicking, of the Queenston party, was unanimously elected captain of the combined party. He was supported by a council elected as outlined above, numbering twenty in all.

The combined party, including those who overtook the main party, numbered about 150 in all, and included one woman and three children.

Our outfit covered 50 carts, each drawn by one animal, a horse, a mule or an ox. These carts would carry from 600 to 800 pounds, consisting of baggage, camp fixtures and provisions. The latter consisting chiefly of pemican, preserved buffalo meat. At Edmonton the carts were exchanged for pack saddles with which to carry our luggage over the mountains, there being only a trail the remainder of the way.

The party remained a week at Edmonton, making the exchange, practising the art of packing and gathering information as to the best route from that point, and the best means of accomplishing the journey. During this interval also the entertainment committee of the expedition, treated the good people of the fort to a minstrel show. This appeared to be greatly appreciated by the large audience present, which included those engaged at the fort, as well as a number of fellow-travellers. As the several artists were stars, each in his line, it would be difficult, if not impossible, to specialize. Suffice it to say that as far as I am aware, all but the writer, connected with the troop have done their last turn, and cracked their last

joke, and await, let us hope with confidence the declaration of the final award.

Drowned in Fraser.

After reaching the province in the autumn of 1862 Captain McMicking made his home in New Westminster, where his family joined him the following year, and near which place he was unfortunately drowned three years later while attempting the rescue of his little son from the cold, cruel waters of the north arm of the Fraser river. Of high intellectual attainments, a pleasing speaker and facile writer, he would leave an impress for good upon any community fortunate enough to have numbered him among its citizens. A striking testimony to this statement is found in the fact that at this date, 46 years after his death by drowning, strong men who had enjoyed his acquaintance as a citizen of New Westminster and who assisted in grappling his body and lifting it from the river, cannot—a life-time after the incident—refer to it without exhibiting marked feeling.

Before the party left Fort Garry one, Charles Rochette, was engaged as guide to lead the party to Edmonton, for which he was to receive one hundred dollars, a riding horse and saddle, and was so paid. When out two weeks, however, the rascal deserted, taking with him a valuable double-barrelled gun and a supply of ammunition on the pretext of getting away from the train to hunt game. He was not seen by us again, although he had been well recommended as trustworthy by a prominent citizen of Selkirk settlement. However, his absence was not greatly felt as the trail from fort to fort was easily followed.

Followed Indians' Lead.

The character of the country by way of the forts is very much superior to the more southern section in fertility and picturesqueness. It is well watered, grows an abundance of luxuriant natural grasses and a great variety of wild flowers, while wild fruit cover its numerous lakes and streams. Strawberries in season can be had for the picking by the way. The Hudson's Bay Company placed its line of forts there, because the Indians with whom it wished to trade were there before it, and the Indians are always to be found the best part of any country, he inhabits, when left to make choice.

Captain McMicking's diary, notes of his impressions on the entrance to the Rocky Mountains from the plain on the east, are worthy of reproduction here: "If it be true, as has been said, that wherever there is vastness there dwells sublimity, we were presented with a view at once sublimely grand and overpowering. On our left and immediately overlooking our camping ground, a stupendous pile of rocks rose perpendicularly to the height of about one thousand feet, across the Athabasca river, and directly opposite to this, Mount La Combe reared its rocky head to a still greater elevation, while behind us Mount Mayette, with its cold and craggy cliffs, crowned with eternal snows, towered proudly far above the whole.

The Mountains.

"In examining and comparing these apparently confused and disordered heaps on opposite sides of the river (Athabasca), one cannot help remarking the striking similarity in many particulars, that exists among them. In order of their strata, their size, or thickness, their dip, or inclination, their composition, and indeed their whole geological structure, there is such a correspondence as must convince the most casual observer that at some period in the world's history they formed contiguous and adjacent portions of the crust of the earth; while the present disrupted condition of these huge masses of rock, and the violent contortions to which they have evidently been subjected, will convey to the mind some faint idea of the irresistible power of those internal fires, that mighty agency by which these terrible convulsions have been effected. And from a consideration of these terrestrial objects, the meditative mind, by a natural and easy gradation, will rise to a contemplation of that almighty and infinite Being, who makes all these powers subservient to His will. Who spoke a world into existence, at Whose sovereign fiat a universe was created.

"During the night of the 18th we were visited by a thunder storm, the effect of which was greatly heightened by our close proximity to the scene of the elementary conflict, and the recollection of which shall never be effaced from my memory.

"A heavy black cloud that appeared to hang below the mountain tops slowly floated across our zenith, completely shutting out the heavens and enveloping us in impenetrable darkness.

"Presently all surrounding objects were highly illuminated for an instant, while the liquid fire coursed along the cloud, or darted from peak to peak, to be succeeded the next moment by a still deeper gloom, and followed immediately by deafening peals of thunder, which were re-echoed again and again from all sides of our amphitheatre, producing such a sense of grandeur as I shall not attempt to describe."

Travelled 3,500 Miles.

The distance travelled by the party was, roughly, 3,500 miles. Quite a number of the party returned east the same year. Of those who remained many held responsible positions in commercial and governmental circles. At this date the ranks are greatly depleted. I can only recall our fellow-townsmen, Mr. John A. Mara, and Mr. Alex. L. Fortune, of Okanagan; Mr. Wm. Fortune, of Tranquille; and Mr. Schubert, and family, near Kamloops, though I fancy there are others.

The late Mr. Joseph Pulitzer, the American newspaper proprietor, whose estate has just been valued at four million pounds, was not regarded with any great affection by the man who had to work for him. They used to dread his invitations to pay him a visit at his country house, for he generally worried and bullied them about business matters during the whole time they were there. One of these men had just returned, a quivering mass of nerves, from a visit to Mr. Pulitzer when somebody asked him how long it had been there. In mournful tones the poor man replied: "As men count time—three days!"

## SICK DAUGHTER NOW WELL

Mrs. C. Cole Tells How Her Daughter Was Restored to Health by Lydia E. Pinkham's Compound.

Fitchville, Ohio.—"I take great pleasure in writing to thank you for what your medicine has done for my daughter."

"Before taking your medicine she was all run down, suffered from pains in her side, could not walk but a short distance at a time, and had severe pains in head and limbs. She came very near having nervous prostration. She had begun to cough a good deal and seemed melancholy by spells. She tried two doctors but got little help."

"I cannot find words to express my gratefulness for what Lydia E. Pinkham's Vegetable Compound has done for my daughter. She feels and looks like another girl since taking it, and I shall always feel that I owe you a great debt. You can use this letter for the benefit of others if you wish, as I shall always recommend your medicines for female troubles."—Mrs. C. COLE, Fitchville, Ohio.

Hundreds of such letters from mothers expressing their gratitude for what Lydia E. Pinkham's Vegetable Compound has accomplished have been received by the Lydia E. Pinkham Medicine Company, Lynn, Mass.

Young Girls, Heed This Advice. Girls who are troubled with painful or irregular periods, headache, dragging-down sensations, fainting spells or indigestion, should immediately seek restoration to health by taking Lydia E. Pinkham's Vegetable Compound.

### THE EVENING CHIT-CHAT

By RUTH CAMERON

January 1, 1913.

One of the most impressive sermons that I ever heard was a fifteen-minute talk on the meaning of the word "life."

The preacher spoke from the text, "I am come that they might have life and that they might have it more abundantly." He brought out the point that the word "life" as constantly used in the New Testament means vastly more than physical life, that it means life in all the finer, fuller senses of the word.

And then he asked us all how much of us was alive.

Now don't be afraid, I'm not going to preach the sermon, although I'm not so sure it would do you any harm. But tell me, reader friends, or rather, tell yourselves, how much of you is alive?

To-day is a milestone day, a day when even the most headlong of us stop a moment to look back at the road we've been travelling and forward to the new road.

As you stand by the milestone, looking now backwards and now forward at the road, look again, friends, and this time look inwards at the heart you are carrying over that road.

How much of you that started blithely down the road when the sun was young in the sky and the dew was fresh on the grass and you knew the road led straight and fair to a land of promise—how much of the heart that you carried then—is still alive?

Is your sense of honor still alive? And your sense of humor? For believe me that is no unworthy second to a sense of honor. Indeed there are some who say that since it brings more happiness into the world it should hold first place.

In those days of the first milestones, when the road lay so straight and simple before you, you knew that there was power stirring within you, power to do something worth while in the world. Is that belief still alive?

Is your faith in mankind still alive? Of course you have had disillusionments and disappointments; so have all men, and yet the biggest of them have believed to the end that there was more good than bad in the world. Surely your faith is not so soon dead?

And what about your faith in the great Centre of all good, that some men call Evolution and some are not afraid to call just God? In those early days before the vision splended began to fade, before you took a cheap pride in posing as a cynic and an agnostic, you held a simple faith in the Unseen. Underneath all your pose and pretence is that still alive?

How much of you is still clearly alive?

And of that part that seems dead how much of you is merely stifled and insensible and can be reawakened? Is not this a good day to try and see?

CYMRU TARTLETS.

Line patty pans with some good pastry, and put into each a teaspoonful of any jam; then take one egg, its weight in flour, butter and sugar. Cream the butter and sugar together, then add the flour, and last of all the egg and a few drops of any flavoring. Place one teaspoonful of the mixture on each tartlet, put into a hot oven, and bake a light brown. Can be eaten either hot or cold. This is rather a pretty dish, and also very convenient for picnics, as the jam cannot run out.

Before a fire brigade can start for a fire in Berlin the members must all fall in line in military fashion and salute their captain.

## Your Resolution To Be On Time

In a good one, but you'd be all the surer of carrying it out if you had one of those useful, melodious, but insistent "JUNIOR TATTOO ALARMS." It's a pleasure to own a "JUNIOR TATTOO" because it's different from the old style alarm that resembled the kitchen dish pan and "went off" with a clang that set your nerves on edge. The size of the "JUNIOR TATTOO" is as convenient as its voice is pleasing. It is hardly larger than a man's watch, so that you can easily take it along when travelling. There are a score of styles all different, all dainty, and prices start as low as \$2.50.

## The Heintzman & Co. Piano

### AND THE Heintzman & Co. Player-Piano

ARE THE TWO THAT PRE-DOMINATE IN CANADA

We are justly proud of being the exclusive representatives of THE HEINTZMAN & COMPANY PIANO and THE HEINTZMAN & COMPANY PLAYER PIANO. We are proud because we know, and can prove, that we are selling the best.

### QUALITY

QUALITY is the thing you should seek when desiring a piano or player piano and there is no need to go further than here to secure that quality.

If you seek cheapness in a piano or player piano, you not only do NOT save, but you lose all.

Buy the best at the start—buy THE HEINTZMAN & COMPANY PIANO or THE HEINTZMAN & COMPANY PLAYER PIANO.

### How to Take Care of a Piano or Player-Piano

1. It should be closed when not in use.
2. It must not be left closed for long periods, but should be opened occasionally and daylight be allowed to fall upon the keys, or else the ivory may turn yellow.
3. Do not place it in a damp room, nor leave it in a draught.
4. Do not place it near an open fire or heated stove.
5. When cleaning do not use a coarse cloth or feather duster under any circumstances.

## MR. MORLEY TO MR. ANDREWS.

To the Editor:—I am not surprised that Mr. Andrews, who has all along posed as brains and prompter to Mayor Beckwith, should attempt to cover up the mayor's evasion of my challenge to joint debate, to divert attention from the real issues and to mislead the numerous newcomers.

My connection with the Sooke water question is too clearly a matter of record for Mr. Andrews' well known "show poison" tactics to have any effect except to lower him in the public estimation. He is as wide of the mark as he was in his prompting of the mayor in the Barnum matter, and again on the mayor's stand against the expressed will of the people in favor of commission form of government.

Mayor Beckwith can lay most of his troubles to the prompting of Mr. Andrews, and will gain nothing at this time by any such attempt to divert public interest from the financial and other issues which have attained to far too serious and weighty proportions to be withheld from public knowledge and judgment by any efforts of which Mr. Andrews is capable.

That the writer does not still enjoy the patronage of Mr. Andrews is owing to his not proving a docile subject for hypnotic suggestion.

A. J. MORLEY.

Jan. 2, 1913.

## WE FEAR NOT.

To the Editor:—Can the Times do nothing to further the recent suggestion of Mr. M. B. Jackson, in a press letter, that a public meeting be held to determine how we stand here on the question of naval defence?

Is party everything here in British Columbia, and does patriotism count for nothing? Is there no one man of independent mind among our local gentlemen of the Navy League?

Our pitiful patriot of a premier tied up in a knot by his Nationalist alliances, has labored for over a year only to bring forth a mouse, and after a short period of almost unbroken stupefaction, the silence of the grave has settled down upon those here who so loudly assured us that his policy would be worthy of the Empire and provide for the protection of our defenceless coast.

What can the rest of Canada think of our present silence in the face of our past widely trumpeted declarations to the effect that no naval policy would be acceptable to us that did not provide for a fleet on the Pacific. And what a poor figure was cut by the Victoria and Vancouver members in the matter. Despite his previous utterances, Mr. Barnard had no word of attack to offer, Mr. Stephens, of Vancouver, stamped it with the hall-mark of his approval, leaving it to an Eastern Canadian member to get up and state, in reply, that he was mistaken as to the mental of the men of this great province if they endorsed the deliverances of Mr. Stephens.

If Messrs. Barnard and Stephens had been men enough to stand up in their places in parliament and denounce their leader's policy, which any message boy might have evolved in 10 minutes as against Mr. Borden's 12 months, the provinces would have acclaimed them. But they both let slip the opportunity of a life-time, and their constituents will remember it for them.

Messrs. Barnard and Stephens might perhaps still retrieve their position with the people of the province by going back to Ottawa with the statement, for which the meeting advocated by Mr. Jackson will give Mr. Barnard, at least, warrant: "We support the grant of \$35,000,000, but, strictly on the condition that a further \$65,000,000 be at the same time set aside for the immediate provision of Canadian fleet units on the Pacific and Atlantic coasts."

## King's Own Serge

I WANT to tell you about "King's Own" Serge—the best \$20.00 Serge suit I know of.

This suit proves the western man's plaint that "everything is 50 per cent higher now except Semi-ready clothes and postage stamps!"

A fine English serge—close-woven, smooth, and of fast Indigo dye, and free from "shine"—its the King Serge of the Semi-ready line—and vies in popularity with the famous \$25 "Britonsloom" Serge.

Kings Own \$20 Serge Suits offer the best value in fine woollen garments—and they are emphatically the value leader in these higher-cost-of-living days. Allow us to show you.

## A VICTORIA AVE. HOME

A fine looking, well built and modernly finished house on one of the best of Oak Bay's residential streets, waits a purchaser.

It was put up by the owner for his own use. Circumstances made it necessary for him to sell. There are eight large and bright rooms, two open fireplaces, a stone front, and a cement basement.

\$6000

With a cash payment of \$3300, will take this until the week-end. If not purchased before then the offer will be withdrawn.

This is a time in the history of Victoria when a mistake might be made in the selection of a mayor, but, judged by the manner in which all the important matters have been handled during the year 1912, no mistake can be made by continuing Mayor Beckwith in office for the year 1913.

### BIRTHDAY CALENDAR

#### IF THIS IS YOUR BIRTHDAY

You will receive presents and, if in employ, advancement. Do not take risks with anything of much value, for the signs of chance games are against you.

Those born to-day will have intelligence and energy. They will not spare themselves in their efforts to advance and will usually win the goal. They will be inclined to run to extremes, and should be associated with those of moderate, well-controlled minds.

#### TO-DAY IN CANADIAN HISTORY

One of the men whose achievements have helped in a special degree to knit the ties that bind together Old England and Greater Britain was born on January 2, 1747, at the little old-world village of Westerham in Kent. James Wolfe is a hero both to Englishmen and Canadians. He was a soldier from the age of fifteen, and a hard-working one, who took his profession seriously, but did not scorn to take pains over such a light business as learning to dance. Though an excellent disciplinarian, he treated his men with such consideration and humanity that, in his youth, they called him "the Soldiers' Father." He did good service for King and country in different European wars, but won his lasting fame on our own soil. To Wolfe, though but fourth in command, fell the chief glory of the capture of Louisbourg in 1758, and so to him was committed the greater task of the reduction of Quebec. As Lord Roberts put it, two years ago, when unveiling his statue at Westerham—"He won Canada for us, and . . . we, members of the British Empire, now can better understand the worth of the work done" than could Wolfe's contemporaries.

# THE WHY AND THE WHEREFORE OF CANADA'S GREATEST PLEASURE RESORT

Lest there be a misunderstanding among the public as to the purpose and objects of this Resort we desire to explain in some detail the facts regarding it

In the first place the question of accessibility is one that has been criticized since we first offered the property. It is true that at present the only easy means of access is by the steamer Tees (which will be succeeded by the fine, new Princess Maquinna next May). However, it is not expected that this new resort will mature to its fullest measure in a single day. The water route is one which the promoters of the new pleasure resort count upon least of all. The principal means of access will be by Canadian Northern Railway to Nitinat Lake; thence by the Company's motor launch, connecting with comfortable conveyances at a point down the lake only a few miles from the property. The second means of access will be by the scenic motor road which the government is now surveying along the West Coast. This road will eventually connect with Victoria and form a loop with existing roads, offering a delightful route for the motorist. As for the water route, the West Coast Development Co., Ltd., whose sales agents we are, has had a report on the feasibility of constructing a pontoon wharf, anchored to concrete piers, at the natural breakwater at Cloose, and is sufficiently confident that this can be successfully accomplished to promise definitely to undertake it. So much for the means of access which are amply provided for and really varied and easy, when compared with the means of reaching many American resorts.

Now as regards the sand beaches. It has been brought to our attention that we have been understood as claiming that there is a hard sand beach nine miles in extent on the face of our property. We have at no time intended to give this impression. The beaches extend in a series along the entire waterfront of the property, but at intervals the continuous stretch is broken by points of rock which add greatly to the charm and picturesqueness of the property. The longest continuous stretch of beach is probably from a mile and a half to two miles, certainly ample for all resort purposes. The beaches are about 100 yards in width, of the purest hard sand, without pebbles. In the summer months this sand becomes too hot, at times, to be trod upon barefoot. In places one may wade out for 600 feet at low tide, over a gradually shelving sand bottom. Women settlers living near the property, have bathed off these beaches, and they, as well as men who have

tried it, declare that the water is excellent for bathing purposes. There is no question about the bathing facilities of this resort property.

The sulphur springs on this property are not hot springs, but the company will provide this water for drinking purposes for those who desire it, and it will be piped to the artificial beach baths, heated to the desired temperature. Salt and fresh water baths will also be constructed on the beach.

As has been stated often before, the company will improve this resort property, providing all such features as such a resort would demand—a good hotel, a sanatorium, a boardwalk along the strand, a pleasure pier, golf links, tennis courts, bowling greens, etc. Those who profess to know more than those in our employ know, declare that a pleasure pier cannot be built to stand in the surf. To this we reply that we are confident that a steel pier, anchored in concrete will withstand any surf, and that we will prove our assertion by building the pier just as stated in the beginning.

From the beginning there has been, apparently, a disposition among a certain section of Victorians to "knock" this resort. It has been called impossible and out of the question. People who purport to know all about the West Coast have told the most remarkable and misleading stories. Not only do we resent this disposition as harmful to our project, which we believe in; we resent it as unfair and harmful to the best interests of Vancouver Island. The statements made by these critics are as untruthful as they are ignorant. Too many Victorians know nothing at all about what really does exist a few miles away on their own island. The property which we are now preparing to develop is the finest natural resort property in Canada. No one who has taken the trouble to go over it and who has not a personal grudge to feed, is other than highly impressed with it. Every feature of the development promised will be carried out by the company. A good-sized force of surveyors is at work now making the preliminary surveys, and this force will be augmented from time to time as the work progresses.

This resort will mean a great deal to Vancouver Island. The sale of the lots throughout Canada and the Northwestern States will do much to advertise the charms of Vancouver Island. We as a firm stand behind the statements made in our advertising and we shall be very glad if those who feel like criticizing us or our project will come out into the open and speak to our faces, giving us a fair opportunity to reply.

Thursday Evening, January 2, 1913

With the advent of wet weather, many demands are made upon the authorities for improvements to unpaved streets.

Few people realize the enormous amount of work entailed in the paving of a city, and perhaps least of all do they understand that it is practically an impossibility for the civic authorities

to keep pace with the growth of this city in particular.

New districts spring up almost in a day, the city continually throws out new tentacles, and the older and more settled districts steadily increase more and more in value.

As examples of offerings in such districts we quote the following:

PROVISIONS ARE ULTRA VIRES, SAYS SOLICITOR

He Contends It is Impossible to Observe Both Provincial and City Measures

Notice that he would argue that the amendments to the Health By-Law passed by the city council last August were ultra vires was given by R. C. Lowe in police court this morning and the two charges of violations of that by-law brought against Hong Yuen, in whose behalf Mr. Lowe appeared, were remanded until to-morrow. The violations charged against Yuen were that he had no copy of the regulations posted up in his stable at the corner of Piquard street and Quadra street, and that he had not filed a description of the stable with the health officer.

Mr. Lowe will base his argument against the by-law on the claim that it conflicts with the provincial regulations in such a way that both cannot be observed.

Following Mr. Lowe's announcement that he would contest the validity of the by-law, several criticisms of its provisions were voiced by the magistrate and others in connection with subsequent cases.

G. W. Clark, who keeps a stable at 1289 Denman street, had filed no description of his stable although he had been warned, and he was fined \$5. He explained that he did not understand that he was to file the description until the alterations in his stable rendered necessary by the by-law's provisions were completed.

Henry Schroder had filed no description of his stable at 360 Menzies street because he had been provided with no blank form, and had not been told what was the nature of the description desired.

"I suppose to say that it was a wooden building would be a description," said Magistrate Jay. "There is no suggestion in the by-law of what kind of description is desired."

"What they want at the health office is just a statement that there is a stable at a certain place so that the inspectors may visit it and see that it complies with the by-law," explained the Crown attorney.

"Well, in this case they didn't need it because the inspector had already visited the place and put up the notice."

The case was dismissed as a description has been filed since the summons was served.

The magistrate observed that a blank form would have simplified matters greatly.

**BY-LAW IS READY FOR THE NEW PARK**

STADACONA ESTATE MAY BE PURCHASED

Some Slight Criticisms of Terms of Acquisition Are Advanced by Aldermen

The city council this morning passed a by-law to purchase Stadacona Park from the owners, subject to the consent of the ratepayers being given on Thursday week at the annual election. A number of amendments were adopted in the committee stage, and these will be embodied in the by-law as submitted to the ratepayers. The by-law proposes to pay \$35,000 for four and a half acres of the Dupont estate, heavily timbered, lying between Belmont avenue, Elford street, new Pandora avenue and old Pandora avenue. The whole block, however, will not pass into the hands of the city, as some lots on Belmont avenue and Elford street have been subdivided and sold off from the estate.

Ald. Gleason at the special meeting at which the by-law was introduced after the necessary petition had been reported upon favorably by the city assessor, suggested that perhaps it would have been better to pay \$25,000 down and the balance in five years' bonds, rather than as now proposed, the whole in bonds over ten years. The city could save about \$12,000 by this proposition. The scheme now before the council would involve a cost of \$109,053, at the rate of \$10,905 a year for interest and sinking fund. The council, however, decided to continue on the ten-year basis, the payment to be made in the city's bonds.

Alderman Cuthbert wanted the mayor and Alderman Dilworth, chairman of the parks committee, to prepare a statement and give the public all possible information on the advantages of the park. As a real estate man he was satisfied that the price asked was very reasonable. If the opportunity to have land for park purposes in the east end was neglected, in a few years the council would have to pay a great deal more for suitable property.

The mayor promised that all information would be given to the public. He felt that the ratepayers had a clear understanding that the question had been hurried because it came before the council at the special meeting.

Alderman Trimmer sought to have the addition of a clause that the land should be used for park and recreation purposes. He did not want the public kept out of the park for games. They had enough trouble at North Ward Park as it was. The citizens did

Latest Movements Unknown on Outside Stocks but Locals Firm

Victoria, Jan. 2.—No feature of note characterized the quotations on the local stock exchange this morning, and the fact of the eastern wires being down, latest movements of such issues as Granby Smelter and B. C. Packers common were not known. The general list kept their strength, McGillivray being fractionally up. So soon as the year gets in full swing, there is plenty of reserve back of the market to support the upward trend of prices, especially should it be definitely announced that International Coal is to resume dividend payments.

**BOARD OF TRADE.**

Deputation Met F. H. Shepherd, M. P., on New Year's Eve—Laid Recommendations Before Him.

On New Year's Eve a deputation from the Executive of the board of trade, together with the chairman of the committee on harbors and navigation, met F. H. Shepherd, M. P., with a view to interviewing him in regard to public affairs needing his attention. E. A. Pauline, in the interests of the committee on harbors and navigation, laid before the member the board's recommendations for additional aids to navigation and life-saving appliances on the west coast of Vancouver Island. A communication with these statements contained therein had been previously dispatched to Ottawa, but the member had never seen them.

Mr. Shepherd appeared to be very conversant with the condition of affairs with regard to the said appliances and promised to give the matter his closest attention as soon as he arrived at the federal capital.

Other matters in connection with the drydock at Esquimalt and also the survey of the all-rail connection route at or adjacent to the Seymour Narrows were laid before the member for Nanaimo, and all received full attention.

**CONSTABLE'S HORSE BOLTED.**

Shaft of Buggy Came Out and Animal Had to Be Thrown to Be Stopped.

Provincial Constable Owens had a narrow escape from death or serious injury on the evening of New Year's Day, when the shaft of his buggy came out as he was driving down the road from the reserve to the Point Ellice bridge. The buggy struck the horse and caused it to bolt, and it was only the absence of traffic on the bridge as the frightened horse dashed across that prevented a serious accident. The buggy, away from side to side and would have collided with any auto or car on the same side of the road. The horse was finally brought to a standstill by being thrown to the ground.

**WHITEFISH EGGS ARRIVE.**

United States Department of Fisheries Delivers Five Million to Be Hatched in Harrison Lake.

Five million whitefish eggs were delivered on Tuesday to Hon. W. J. Bowser, provincial commissioner of fisheries, by S. W. Downing, superintendent of the United States Bureau of Fisheries at Put-In-Bay, Ohio. These eggs have been expected for over a year and are destined for the Fraser river. A battery of hatching jars is ready to receive them at Harrison lake.

not want a flower garden in the east end.

Alderman Gleason (thenceforth): "Don't you like flowers?"

Alderman Humber: "Yes, but there is plenty of room for them at Beacon Hill Park."

The by-law then passed through all its stages. It will be submitted to the people at the annual election.

Some people think that justice applies exclusively to ancient enmities, to money transactions and dealings in business. But that is a very restricted and imperfect view of what constitutes justice. It lies quite as much in the habit and manner of speech as in the making and enforcement of contracts.

**EXPORTERS REPORTED TO BE BUYING WHEAT**

Winnipeg and Foreign Markets Up With New Year Opening

Winnipeg, Jan. 2.—The market opened 1 to 2 advanced this morning and was steady during the course of trading. The pattern are reported to be heavy buyers of May wheat and there is a good cash demand for all grades from No. 3 Northern down, but little interest for two top grades. Offerings are light. Oats and flax were quiet, but show signs of improvement. Receipts for the past two days were heavy, being 1,255 cars inspected and 70 in sight to-day.

Cables closed: Liverpool, 4 to 1 up; Paris unchanged to 4 up; Berlin, unchanged; and Budapest, 1 up.

## FORESHORE DISPUTE HAS BEEN SETTLED

## AMICABLE ARRANGEMENT BETWEEN TWO COMPANIES

F. H. Shepherd, M. P., Says That Both Lumber Co. and C. P. R. Will Continue

The foreshore dispute at Thetis Cove has at last been settled, and what is more, to the complete satisfaction of all concerned. Victorians will be delighted to learn that the projected lumber mill, the culmination of which was wrapped in uncertainty when the dispute first commenced will now most surely be erected, and will, figuratively and actually, bring a little more grist to Victoria's mill.

It will be remembered that the dispute arose over the piece of ground at Esquimalt, a lease of which was applied for by the Canadian Puget Sound Sawmills Company; this was opposed by the Canadian Pacific Railway, as it foresaw a partial blocking of its wharf to which the oil, fuel is brought from California. Consequently the company opposed to granting the lease strenuously, and the Board of Trade, taking up the sawmill company's case, the matter was laid before Hon. J. D. Hazen, minister of marine and fisheries.

F. H. Shepherd, M. P. for Nanaimo, who is in the city, now announces that an agreement between the sawmill company and the railway corporation has been arrived at, and in such fashion as to allow the activities of both to be continued unimpeded.

As the full details of this desirable consummation have not been disclosed, it is not possible as yet to give any account of the way in which the two interests have compromised, but it is hoped that full particulars will be ready for publication shortly.

That the mill will be of great advantage to Victoria and to its development is an assured and indisputable fact. With the vast timber wealth lying behind the city, and the hundreds of acres of fir and pine and cedar as yet untouched, the importance of the venture cannot be over-estimated.

The three-quarters of a million dollars which the company is said to be putting into the new mill is but a small part of the money which such an undertaking would bring to the southern part of the Island.

The plant is to be the most modern description with admirable safeguards against danger from fire; the whole of the machinery and plant is to be run by electricity and for this it seems likely that the Jordan river plant will benefit.

## DROWNED IN RIVER AT NORTH OF ISLAND

## Boat Containing Two Men Swamped in Heavy Sea at Mouth of Nahmint

The body of Herbert Rees Evans has been shipped south from Nahmint river to Vancouver. Evans was drowned in that river on December 15. There was a heavy swell and the fragile craft was swamped just as they were nearing their destination. Several persons saw the boat overturn, and Jack Wilson, successful fisherman, and over the rocks with a rope, which he threw to Patterson, who was hauled ashore. Evans' body was not recovered until last Friday, and it was shipped to Vancouver.

## HIS HONOR KEPT OPEN HOUSE YESTERDAY

Nearly Six Hundred People Were Presented at Usual New Year's Day Reception

His Honor the Lieutenant-Governor, following the ancient New Year's Day custom which has existed in all the old British houses from time immemorial, kept open house yesterday afternoon between the hours of three and six.

In all nearly six hundred people called upon His Honor, who received his guests in the drawing-room at Government House; the callers were introduced by Mr. Muskett, the governor's aide, and after being presented, passed out through the ballroom into the bright dining-room.

Among the distinguished guests who took advantage of the opportunity to call upon the governor were noticed members of the provincial cabinet, including Sir Richard McBride, Hon. Dr. Young, Hon. Thomas Taylor, Hon. W. J. Bowser, and Hon. W. R. Ross. Practically all the clergy of all denominations in the city were present. Among them were noticed His Lordship the Bishop of Columbia, Dean Doull and Rev. W. Leslie Clay.

M. Jean de Puligny, French deputy minister, who arrived in the city for a few hours, took advantage of the opportunity to pay his respects to the lieutenant-governor.

Y. M. C. A. COMMITTEE WELCOMES GUESTS Reception Proved Very Popular—Two Hundred Visitors Were Present

Yesterday afternoon the president of the association, W. N. Mitchell, and Messrs. Whittington, Scofield and George Bell formed the reception committee at the "at home" held at the Y. M. C. A. these gentlemen being assisted in receiving by the secretaries of the various departments, Messrs. Beall, England, Hughes and Raymond.

Nearly two hundred visitors were present during the afternoon. At 3 o'clock the exhibition commenced with drills and exercises. At 4 o'clock a basketball game between the Business Men's basketball team and the senior basketball team took place. The first named winning by a score of 13 to 2.

At half past four a very entertaining event took place when a swimming exhibition was given in the swimming pool. Another of the enjoyable features of the reception was the music supplied at intervals by Prof. Claudio's orchestra.

## FIRE DEPARTMENT

## WANTS ADDITIONS

## List of Principal Apparatus Which is Required in New Year

In his recommendations to the city council, through the fire warden, Fire Chief Davis says in his annual report that a large 50-horse-power motor hose wagon with a capacity of 2,500 feet of 2 1/2-inch hose should be purchased for the headquarters of the station. The present motor hose wagon, he holds, should be transferred to No. 2 station, Kingston street. He also suggests that owing to the large district that No. 2 engine has to cover, an 80 horse-power tractor be purchased and attached to the engine. The chief finds that horses can scarcely draw the engine up Fernwood hill. He recommends that a two-story fire proof building be built in the rear of the headquarters of the station for the use of the fire alarm system. He also suggests that a new boiler for the steam unit at the salt water pressure system, Herald street.

As tenders have been received for the supply of fire alarm cable, the chief intends as soon as the cable arrives to see that the work of installation underground is commenced. At least 15 new alarm boxes will be required.

## MURPHY WORST BURNS.

Defeated Man's Face Was Beaten Out of Shape in Fight.

San Francisco, Cal., Jan. 2.—Frankie Burns' seconds threw a towel into the ring in the seventeenth round of his fight with Harlem Tommy Murphy to-day. Burns had been beaten almost senseless and his face had lost its contour. Murphy, barring the second round, when he ran foul of a right cross that sent him to the mat, was at all times Burns' master. When the bell rang for the start of the seventeenth round Burns tottered from his seat. Murphy went after him, landing right and left on an undefended face. Murphy got the decision.

## MONTREAL COMMISSIONERS.

Montreal, Jan. 2.—The new Montreal harbor commissioners, W. G. Ross, president; and A. E. Labelle and Parquhar Robertson were inducted this morning.

The steamship Umatilla, Capt. Reilly, of the Pacific Coast fleet, is expected to port from the Golden Gate early tomorrow morning. The Umatilla has several hundred tons of freight to put off her and a number of passengers will disembark.

## Start the Year Right by Dealing at Ross

This has been rightly termed "The Model Grocery." We import direct. Everything found here is right-up-to-the-minute—clean and fresh. No accumulation of old stock in any department. Everything priced low as possible.

### TEA

We have just negotiated with one of the leading Tea Brokers of the coast enabling us to come in contact with a shipment of the choicest blends of Formosa, Oolong and Pekos. These blends will surpass any others on the market; this means much, because we pride ourselves on having the largest output of Tea of any retail store in Western Canada. Our "Dixi Tea" is now proverbial—a blend that has been termed "the Eureka of the West." If quality counts, its fame can never die.

## FRENCH DEPUTY ON

## A HURRIED VISIT

## HE WANTED TO LOOK OVER STRATHCONA PARK

Was Delighted With Buildings and Roads of Victoria—Visits Lieut.-Gov. and Mayor

Monsieur Jean de Pulligny, superintendent of roads and bridges in the Republic of France, arrived in the city for a short visit yesterday to glance over the roads of the city and the public works generally. His position in France corresponds almost exactly with the post of deputy minister of public works in this country.

M. Pulligny arrived on the Seattle boat at 1:30. "I have to return at 4:30," he said to a representative of the Times in his rather broken English, "so I am going to spend an hour or two in looking over your beautiful Strathcona park."

When it was explained that Strathcona Park was somewhat more than a Sabbath Day's journey out of the city, and that in fact it would take him a week or so to go and return, M. Pulligny seemed somewhat perturbed. "Ah, but I am what you call disappointed," he said, with a slight elevation of his shoulders and a broad outward sweep of the arms, "I have heard so much of your Strathcona park down in Seattle and elsewhere that I was overwhelmed with the desire to see it. I imagined it was such a beautiful green stretch that encompassed the city, and about which the blue sea folded its arms lovingly. And it is hundreds of miles away!"

M. Pulligny was much impressed with the aspect of the parliament buildings and the Empress hotel, which met his gaze as soon as he left the wharf. The setting of the provincial buildings charmed his trained sense to such a degree, and he remarked, "such a building gives dignity to a whole city, for its beauty, if not imperishable, is lasting and wonderful; it lends tone to this harbor front, and gives a sort of old world vista that new cities lack. I have passed completely through America, and there the buildings are very beautiful, in many cases of supreme grandeur; but there is no setting, no attempt at showing them off in their best light. They are for the most part huddled on the street so that their beauty of line is practically lost to the passer-by."

M. de Pulligny explains that he had been commissioned by the French government to tour America to look into conditions of public works, and that he had been engaged on the work for about one year. He had spent some time in looking over Seattle, and there had heard so much of Victoria that he could not forbear paying it a short but hurried visit.

Talking about roads the French deputy said, "It is not many moons ago since France thought herself in a class by herself in the matter of road building; she boasted of her prowess, and as a matter of fact her highways became known throughout the world as being the finest anywhere. But the advent of the motor car changed all that, heavy automobiles and the great wagons which the petrol-driven motor has brought in were found to be too ponderous for the boasted highways of fair France, which gave way under their pressure. Now she is looking for the best means to improve them."

"I am much interested now in the new liquid asphalt binding for macadam roads, and will have something to say about it in my report to the government."

Another feature of road-making in which M. Pulligny was greatly interested was the hurdle bridge, which is being used a good deal on highways in the States. He had seen some of these highways at Seattle, constructed on a new method and had found them very efficient.

The deputy was met at the Empress hotel by C. H. Rust, the engineer, and R. H. Thompson, engineer for Strathcona park, who escorted their guest about the city in an automobile, showing

him some of the principal thoroughfares and pointed out how the work of development was progressing. M. Pulligny was particularly delighted with the beach drive, and there is no room for doubt that he left Victoria with a deep impression at least of the adequacy and beauty of alignment of the city's roads. Needless to say he did not visit Strathcona park.

Later in the afternoon he was taken to the mayor's house, where he was presented to the chief magistrate, and from thence was conveyed to the Government House, where the Lieutenant-Governor was receiving.

M. de Pulligny left on the afternoon boat for Seattle, whence he will go to San Francisco. He expressed great appreciation of what he had seen in Victoria, and said that he would carry away a profound impression of the beauty of the city and of the kindness and hospitality of its people.

## RAPID DEVELOPMENT OF BIG COAL AREAS

## NEW COMPANY HAS BEEN FORMED ON THE ISLAND

Pacific Coast Collieries, Ltd., Incorporated by Federal Letters Patent

It is announced that arrangements have been completed for the more rapid development of the properties of the Pacific Coast Coal Mines, Limited, by the formation of a holding and mining company known as the Pacific Coast Collieries, Limited. This company has been incorporated by federal letters patent, and has a capital of \$1,500,000 of six per cent. preferred stock and \$2,500,000 ordinary stock; the preferred has already been subscribed and \$250,000 of the ordinary will be kept in the treasury.

The financing of the company has been undertaken by the Canada Securities Corporation, Limited. The Pacific Coast Coal Mines Company, which has been operating its mines at South Wellington, has also been engaged for two years past in sinking two shafts for the opening up of its properties beside the Nanaimo river in Cedar district between South Wellington mines and Boat Harbor.

The main shaft is down about 550 feet, and there is the expectation of striking coal within the next thirty feet. As a result of the new financial arrangements the company will be able to complete the equipment of this mine; to add materially to its railway facilities, and to build a much needed addition to the wharf at Boat Harbor. These improvements will cost about \$250,000. The company has also proceeded with its development of the Squagash coal area at the north end of the island. At that point there are several mines of underground work with sufficient development to enable the company to mine 600 tons a day. Before the end of 1913 it is expected that the company will have these mines fully equipped and in active commercial operation at a cost of \$500,000.

It is also announced that C. C. Michener, who has been president and managing director, will resign his post as managing director, and will be succeeded by J. H. Tonkin, of Wilkes-Barre, Pennsylvania. Mr. Michener has large interests also in Washington and Oregon, and will give them his undivided attention.
